SOCIALISTS ASK PEACE PLANS OF NEW CHANCELLOR

Michaelis Preserves Silence
of Sphinx On His Future
Policies

PROBABLY WILL REQUEST
TIME TO STUDY PROBLEM

Reichstag's Peace Resolution
May Not Be Basis
of Policy

(Associated Press Telegram)
London, July 18.—A dispatch to the Exchange Telegraph company from Berlin via Amsterdam announces that Chancellor Michaelis has asked the president of the Reichstag to summon the members Thursday afternoon for a "communication from the government."

(Associated Press Telegram)
Copenhagen, July 18.—Chancellor Michaelis, as a Danish editor remarked, is preserving the silence of a sphinx on the German peace program but the Liberal press and politicians in Germany manifest an increasing apprehension that when the sphinx finally breaks silence he will speak with a decided pro-German accent.

The speech is not expected to go exhaustively into questions of reform or peace as the time is too short for Chancellor Michaelis to elaborate a definite program. The Socialist agency reports that in all probabilities he will ask six weeks grace to inform himself and work out a detailed policy. The agency undoubtedly speaking for Herr Scheideemann, the Socialist leader, demands, however, that Herr Michaelis immediately and unequivocally make clear his attitude on the Prussian franchise reform and the peace formula.

The Lokal Anzeiger also reckons with a deferred presentation of the chancellor's program and instances the question of parliamentizing the government as one of the problems Herr Michaelis will avoid because it cannot be approached until after exhaustive discussion by the federated governments. It appears unnecessary for Chancellor Michaelis to burn his fingers with this question at all because the Catholic Center party has already changed sides. It explains in an inspired article in the Clerical papers, that the party interpretation of parliamentarism is merely the bringing of the government and parliament in touch—not the introduction of a parliamentary regime to which the Center is now as always opposed. The Center merely wishes to change the system that at present hinders a member of parliament from entering the government. The National Liberals have also adopted a "close touch" theory.

The papers manifest some uncertainty regarding the fate of the Reichstag's peace resolution. The Clerical and Radical organs insist it will have a big majority although they evidently are counting on some decidedly "uncertain" votes. They fear, however, Chancellor Michaelis will refuse to accept it as a basis of his policy. The Vorwarts, the Socialist newspaper, in a leading article, warns Herr Michaelis of the danger of temporizing on either question. It says the crisis, perhaps, is not over and may redevelop after a short pause. It is even conceivable that the next manifestation may not pass with the complete order characterizing the last.

WILL DECLARE FOR PEACE.
Basel, Switzerland, July 18.—The Neue Schweizer of Munich says that the declaration of the new German chancellor, Michaelis, before the Reichstag tomorrow will be for peace, having the same general trend as the resolution prepared by the parties of the left.

ABSOLUTE CONTROL OF FRENCH SHIPS GIVEN TO MINISTER

Paris, July 18.—Anatole de Monzie, the newly appointed under secretary of maritime transport, has obtained the cabinet's approval for the institution of a general control over the mercantile fleet. The decree instituting the measure refers to the increasing diminution of tonnage due to the submarine war as necessitating intense rational use of the whole mercantile fleet.

The decree authorizes the under secretary to undertake all means to control freight rates and to utilize ships. Every ship of more than one hundred tons must have a license from the under secretary, which must be presented at every port entered in order that the voyage and cargo may be controlled. M. De Monzie has the power to requisition every ship he considers insufficiently utilized.

OHIO MAN GETS PLUM.
Washington, July 18.—Albert Schoonover of Los Angeles, was nominated today by President Wilson as United States attorney for the southern district of California, and Charles W. Lapp of Ohio, was nominated United States marshal for the northern district of Ohio.

FROM FARMER BOY TO CHIEF OF STAFF

Lieut. Col. James G. Harbord.

Lieut. Col. James G. Harbord, General Pershing's chief of staff and right-hand man of the American commander in France, was born a poor boy on an Illinois farm fifty-one years ago. He tried to get into West Point, but failed. He worked up through the ranks and is today classed as "one of the ablest leaders in the army."

BELGIANS AND BRITISH HELP RUSSIAN ALLY

(Associated Press Telegram)
Petrograd, July 18.—Heavy fighting is continuing in the region of Novica and Kalusz in eastern Galicia, the war office announced today. The Russians were driven from a height in this region by a strong attack but afterwards by a counter thrust reoccupied the eminence.

USE ARMORED MOTORS.
(Associated Press Telegram)
Washington, July 18.—British armored motor detachments are taking part in the Russian offensive in Galicia, according to semi-official information received today from Petrograd by the Russian embassy here. This is the first mention of the presence of British forces in Russia and says the armored cars are co-operating effectively with Belgian detachments sent there soon after the war began.

RESERVES STOP RUSSIANS.
(Associated Press Telegram)
New York, July 18.—General Korniloff's armies in eastern Galicia have been held up for a time by the hurrying of heavy contingents of German reserves to the front, stiffening up the Austrian defense along the River Lomnica.

The holding of this river line is vital to the safety of the Teutonic position not only in this part of the front, but northward to the Galician border, and that stubborn resistance would be offered there had been anticipated.

Meanwhile there is notable activity along the Franco-Belgian front. The French at Verdun have just completed an important operation in the realignment of their front north-west of Verdun, which was disturbed by German attacks in the vicinity of Hill 304 late last month.

The French, in fact, carried their successful counter attack even beyond the original line and drove nearly two-thirds of a mile into the German front from Avocourt Wood to west of Hill 304.

The new ground is being firmly held, several counter thrusts undertaken by the Crown Prince's troops last night being completely repulsed. On the British front there is pronounced activity and there has been a notable amount of heavy work done by the artillery, particularly along the lines in Belgium.

Today's official announcement from Petrograd shows the Russians to be still hotly engaged in the Lomnica region and holding their own against the reinforced enemy. South of Kalusz the Austrians had never been forced across the Lomnica, and they are continuing their violent reactions in this region. Yesterday they drove the Russians from a heights to the south of Novica, but in a brilliant counter attack, General Korniloff's forces defeated them and recaptured the position.

COSSACKS QUELL PETROGRAD RIOT; COUNCIL ACTS

Attempt to Influence Gov-
ernment By Armed Force
is Condemned

RESOLUTION DECLARES
FUTURE IS THREATENED

Disorders Occurred In Mid-
afternoon But Quiet is
Restored

(Associated Press Telegram)
Petrograd, July 18.—Another manifestation of armed sailors and soldiers and working men and women, in which shots were fired, took place along the Nevsky Prospekt yesterday. The extent of the casualties is unknown.

Yesterday's disturbances were a repetition of those of the day before except that the occurred at 2 o'clock in the afternoon whereas the first outbreak occurred around midnight. The manifestations were grouped along the same part of the Nevsky Prospekt. A number of stray shots were heard, followed by the firing of rifles against upper windows and roof tops at a seemingly imaginary foe.

For the first time since the revolution Cossacks appeared and patrolled the streets. Companies here and there carried machine guns strapped to their saddles, the men leading their horses.

The council of the new body of soldiers and workmen and peasants of all Russia, the extremists abstaining from participation, passed a resolution today after an all-night session rejecting "with indignation all attempts to influence" the attitude of that body.

"It is inadmissible," continues the resolution, "that armed demonstrations should seek to impose the will of isolated military elements upon whole of Russia. Blood has been shed in the streets of Petrograd. All these acts toward our revolutionary army, which is defending the conquests of the revolution at the front, are acts of treachery, and felony. Whoever attacks the recognized domestic agencies, whoever sows discord in their ranks, is striking a dagger's blow in the back of the revolutionary army which is fighting against the troops of William."

The resolution protests against the "deplorable symptoms of decomposition," which comprise the whole national authority and the future constituent assembly, and it demands that an end be made once and for all "to all acts which dishonor revolutionary Petrograd."

CAMPBELL TELLS I. W. W. LEADER TO GUARD HIS WORDS

(Associated Press Telegram)
Globe, Ariz., July 18.—Warning that the Industrial Workers of the World would take the law into its own hands if any attempt is made to deport members of that organization from the Globe-Miami district was contained in a telegram from F. M. Little, organizer of the I. W. W., received by Governor Thomas E. Campbell last night and made public here today. The telegram from Little, who recently left Globe, was dated at Salt Lake City and follows:

"Understand that the mine-owners mob will take same action at Globe and Miami as was taken at Bisbee. The membership of the I. W. W. is getting tired of the lawlessness of the capitalist class and will no longer stand for such action. If you, as governor, cannot upbraid the law we will take same into our own hands. Will you act or must we?"

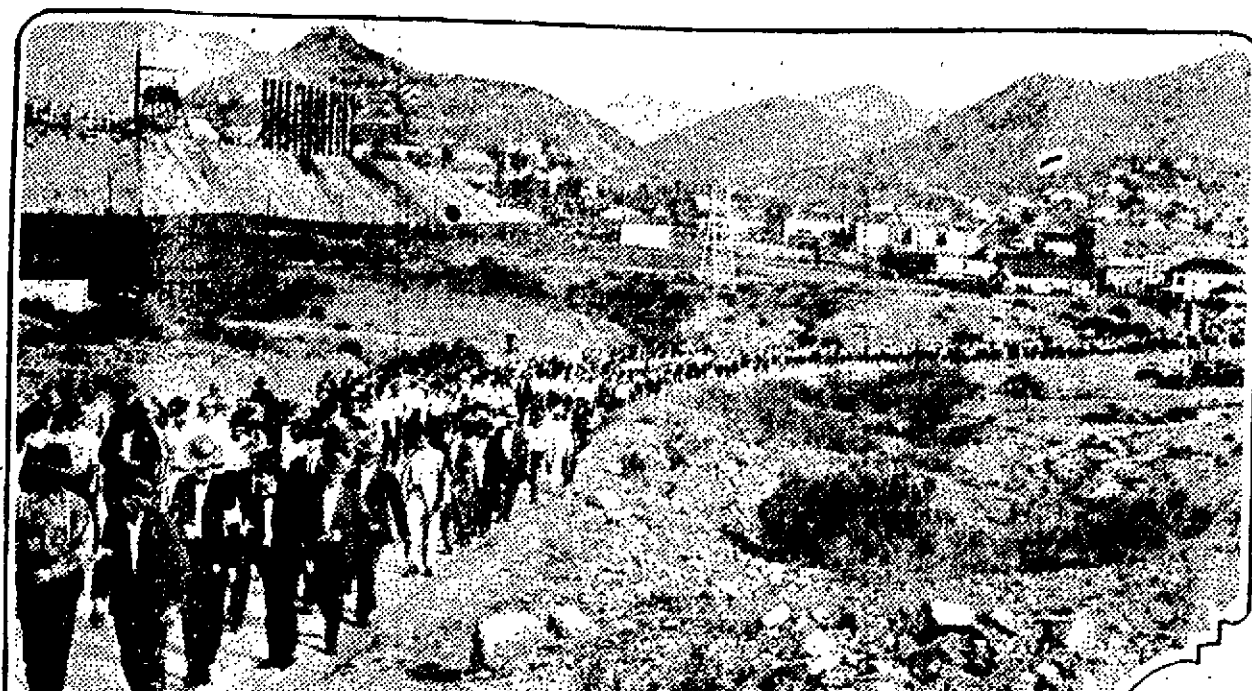

In reply, Governor Campbell said he felt sure no deportations could occur with federal troops stationed in the district and that he was using his best efforts to protect rights of all citizens. Concluding, he said:

"I resent your disloyal and untimely threats in view of my earnest efforts to bring law and order and such forces as will maintain same, and further like behavior on your part will be punished to the full extent of my authority."

MAY DEPORT MORE MEN.

(Associated Press Telegram)
Bisbee, Ariz., July 18.—"Rustling cards" are to be issued today to the "investigating committee" to men who desire work in the mines in the Warren district. Under this system, which never has been used here before, any man possessing a card is entitled to apply for work at any mine or mill in the district. The system, it is explained, does away with the various employment offices. The "investigating committee" besides issuing cards to men seeking work also has supervision over the deportation of any members of the Industrial Workers of the World, or their sympathizers who evaded the round-up last week, when 1168 were deported, or who have slipped past the sentries guarding the roads leading into the district. Since the general deportation, 30 men have been sent out of the district, and others are being sought.

I. W. W. AGITATORS GET A FREE RIDE OUT OF BISBEE

Bisbee citizens leading I. W. W. agitators to the train, and the departure of the "wobbly special" for New Mexico.

I. W. W. agitators found in Bisbee, Ariz., and vicinity are given short shrift by the citizens of that section. These photos were taken when 1,192 members of the I. W. W. were gathered up by the disgusted citizens of Bisbee and Warren, put on a special train of twenty-four freight cars, and deported into New Mexico. When the train reached its destination United States authorities received the agitators, who are now being sheltered and fed at the expense of the government.

DOMESTIC CONSUMER OFFERED COAL AT MINIMUM PRICE THROUGH POOLS

Delay on the part of coal consumers for domestic use, in putting in their winter supply during the late summer months, has brought forth the warning from state officials and coal operators that the natural rush in the early fall will leave someone without an adequate coal supply.

The revolution, protests against the "deplorable symptoms of decomposition," which comprise the whole national authority and the future constituent assembly, and it demands that an end be made once and for all "to all acts which dishonor revolutionary Petrograd."

In some cities where coal brokers have stubbornly maintained the top prices in spite of the government's request for reasonable profits, it has resulted in pools being formed by consumers with the co-operation of operators and as a result many cellars are being filled at a saving of \$2 to \$2.50 per ton.

Newark consumers will have the same opportunity, according to Wayne Collier of the Pan-American Coal company, operating mines in the Muskingum and Perry county mining districts. The board of directors of this company at a meeting in Cleveland, held Tuesday, authorized Mr. Collier to offer to cities which have purchased Pan-American coal in past seasons, such opportunity.

The proposal as announced by Mr. Collier is that a committee of domestic consumers be organized to handle the details at this end of the line, pool their orders which will enable them to purchase in car-lots.

The company will furnish 200 cars of coal on this basis if the proposal is well-received. The allotment to Newark is calculated from the amount sold here in past seasons.

The coal will be furnished at the rate fixed by the government, which at present is \$3 for Hocking "run-of-mine," and \$2.50 for re-screened Hocking lump. The price quoted is

f. o. b. cars at the mines. Added to this is 65 cents a ton for freight, and approximately 50 cents a ton for hauling. This would bring the price delivered to consumer up to \$4.15 and \$4.65 as compared with \$5.25 and \$5.50, the minimum prices.

Mr. Collier stated that the Pan-American mines have been able to dispose of the entire output of the mines without any difficulty and that this summer the cars have been rolling steadily to lake docks and will continue to do so as long as lake navigation is open. Big steam plants are anxious to contract for coal supply and the Pan-American company has been receiving numerous offers from steam-users for the purchase outright of the mining properties at a price which would make the deal as profitable as operation of the mines for two years.

Operators in their statements to state officials have held coal brokers responsible for the continued high prices. Many of the mines had year contracts with brokers which are expiring this summer, to furnish coal at around \$1.65 a ton at the mines, which price prevailed through last winter, it is claimed. Many operators are refusing to renew such contracts because the brokers have steadfastly refused to do their share toward a patriotic reduction of coal prices.

The Pan-American mines will ship no coal to Newark or Zanesville, Mr. Collier announced, except through pools, as suggested, or other similar plan.

All operators are suffering from a labor shortage. The normal capacity of the Pan-American mines is 50 cars a day, Mr. Collier said, and the labor supply is sufficient for only 35 cars a day now.

POLICE COURT FINES TO FIT POCKETBOOKS.

(Associated Press Telegram)
New York, July 18.—Hereafter police court fines on the East Side are to be measured by pocketbooks, according to Magistrate Fuchs, of the Essex Market court, who has made fines of 25 and 50 cents a reality. Magistrate Fuchs said those who commit a petty offense in that district were not able to pay large fines, and that it was not fair to impose the same fines upon them as were assessed against persons in better financial circumstances.

ESTABLISH POSTOFFICE TO KEEP LOCATION OF THE U. S. ARMY SECRET

(Associated Press Telegram)
American Training Camp in France, July 18.—The latest development of the camp is a postoffice which will enable men to mail letters either home or to any other point in the world, to keep in constant communication with friends without revealing their exact whereabouts by the tell-tale cancellation mark on envelopes and to receive mail either through families or friends who do not know what the destination of their letters may be. The system naturally will be enlarged to fit needs. At present it consists in requiring of each soldier or officer that he address his communications of every nature from the American training camp and deposit them in a special postoffice from which they will be taken by pouch to Paris and mailed in the ordinary manner. Similar return mail should be addressed to the training camp of the American expeditionary forces, Paris, whence it will be forwarded to the proper address.

When the troops left their base they took with them surplus supplies which are now being turned back to the quartermaster's department headquarters for redistribution so that there will soon be more than enough of such things as tobacco and similar little luxuries which have been somewhat scarce among some troops and regiments. Each succeeding day brings a better degree of order and system out of the inevitable confusion attendant upon moving a large body of troops. Officers who billeted among the inhabitants are still billeting at the moderate prices that prevail for the majority. They may by request pay one franc daily for quarters and provide they eat at a hotel expend seven francs daily for excellent food. Prices are thus kept low to prevent a repetition of events early in the way when allied troops in French territory accustomed to city prices, at that spoiled the French population by paying what seemed to them moderate but really enormous rates for everything.

HAIRCUTS ARE HIGHER.
Zanesville, July 18.—Barbers here announced an increase in the price of haircuts from 25 to 35 cents beginning next Monday "on account of the war." Shaves still are ten cents.

GERMAN FACTORY DESTROYED.
Amsterdam, July 18.—The News Telegraph of Stuttgart, Germany, reports that on Saturday a great explosion occurred at the Wilhelm Weidenbach factory. The building was destroyed, neighboring houses were damaged greatly and windows were broken in the nearby village of Suedheim.

APPOINTMENT TEMPORARY.
Amsterdam, July 18.—According to news brought by arrivals from Berlin belief in liberal circles there is that Chancellor Michaelis is merely a stop-gap who will prepare the way for something in the way of a dictatorship with General Ludendorff in supreme control.

PERFECT PLANS FOR DRAWING OF SELECTED ARMY

Secretary Baker Approves
Details Worked Out By
General Crowder

NEWS MEN CONSULTED
ON PLACE OF DRAWING

Await Last Report From
States That Lists Are
Numbered

(Associated Press Telegram)
Washington, July 18.—Although complete reports from seven states were still lacking early today, Provost Marshal General Crowder began final preparations for the national lottery which will determine the order in which ten million registered men will come forward for military service.

The plan for the drawing has been worked out in detail and approved by Secretary Baker. It will be carefully explained to the press representative before it is given out for publication.

The machinery for the lottery has been arranged and the only points undecided are the exact place in Washington where the drawing will take place and the date.

It was suggested today that a committee room at the capitol be used. There are many questions, such as wire facilities which must be considered and it is probable that General Crowder and the Washington correspondents will work out an agreement on this point. The government will be ready for the drawing as soon as the last state has reported by telegram that its work is complete. If the last telegram comes in this morning the drawing can be held the same day. If it comes at night, it is probable the drawing will take place the following day.

LONDON EDITORS NOT ELATED OVER NEW MINISTRY

(Associated Press Telegram)
London, July 18.—The new cabinet appointments "get a mixed reception in the morning newspapers. The majority, however, are indignant and express the willingness to give the appointees a chance and to judge them by results. The selection of Sir Eric Campbell Geddes, who has been director general of the munitions supply, to head the British admiralty, arrests a large share of the editorial attention. It is described as "startling, original and bold" but his record in other posts is amply recognized as a great one.

The Tory press deplores the removal of Sir Edward Carson from the admiralty where it declared he has been a great success; while the radicals to whom Sir Edward is a perennial object of their displeasure, were disgruntled at his admission into the innermost ministerial sanctum.

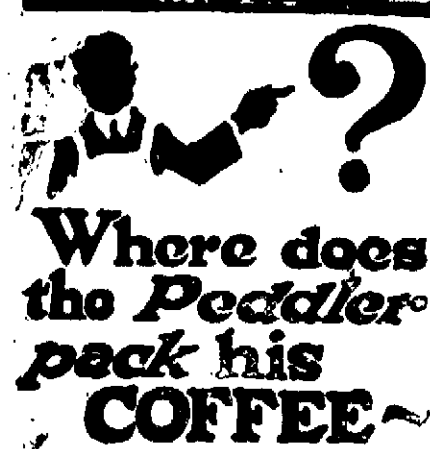

The reception to Winston Spencer Churchill, who succeeds Dr. Christopher Addison as minister of munitions, is nowhere enthusiastic. The Morning Post, after a lukewarm reference to Sir Eric Campbell Geddes and a vitriolic attack on Edwin Samuel Montagu, the new secretary for India, says of Churchill: "Although we have not yet invented an unshakable ship we have discovered an unshakable politician," and refers to his "colossal blunders and overweening conceit." The newspaper fully expects he will repeat his blunders and says his appointment "shows our politicians have an open contempt for all sound principles of administration and the decencies of public life."

Elsewhere Churchill's enthusiasm, push and ingenuity are recognized by writers who nevertheless doubt his suitability as minister of munitions where the thorny task of dealing with labor in the production of munitions complicates the duties of the post in a manner for which it is feared Churchill is unequipped. Among these, the Times says the country is not in a mood to tolerate and attempt to resuscitate amateur strategy. The Daily News says Churchill has shown courage in accepting the post of minister of munitions, saying: "There are various kinds of courage. Some of them are virtues."

185 JAILED FOR PART IN GERMAN FOOD RIOT

(Associated Press Telegram)
Copenhagen, July 18.—Advice received from Dusseldorf says that the state of siege there, the result of food riots, has been raised after 185 persons received sentences averaging 18 months. At a big labor meeting vigorous protests were made against the severity of the sentences. Suspension of the sentences of children and minors and guarantees against reduction of the bread ration were demanded.

Twelve thousand workmen attended a meeting at Bielefeld, the center of the Westphalia linen industry, and adopted a resolution demanding peace without annexations or indemnities.

Where does the Peddler peck his COFFEE?

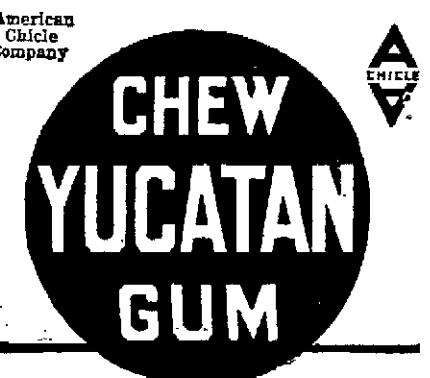

IN a dark cellar, maybe. But Golden Sun is clean-roasted, cut and packed in air-tight cans in great, immaculate rooms. It's free from chaff, it is strong and full of fragrance and aroma. So Golden Sun makes into coffee that's rich and mellow, delicious and satisfying. Yet its price is modest—for it carries no premiums. Only grocers sell it.

Golden Sun Coffee

THE WOOLSON SPICE CO. Toledo, Ohio

If your appetite begins to go back on you—Then chew lots of Yucatan Gum.

Alkali in Soap Bad For the Hair

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it. The best thing for steady use is just ordinary multifid coconut oil (which is pure and greaseless), and is better than the most expensive soap or anything else you can use. One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage. You can get multifid coconut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.

BELL-ANS
Absolutely Removes Indigestion. One package proves it. 25c at all druggists.

S. O. S.

MESSAGE FLASHED TO SUFFERING THOUSANDS.

Chemist discovers a valuable compound that immediately removes pain from corns along with the corn itself. Cutting corns is flitting with death. C. OF C. DIRECTORS PAY A VISIT TO BUCKEYE LAKE

That Buckeye Lake is one of Newark's greatest assets and always will be operated in such manner as to reflect the highest credit on Newark was the declaration of E. R. Deffenbaugh to the directors of the Chamber of Commerce at a dinner last night at the Mauger Hotel of the popular pleasure resort. He asked for the support of Newark business men to help build up Buckeye Lake for the best interests of Licking county and pledged the management's efforts to such an end. President Frank L. Beggs in response said that the Buckeye Lake of today under the present management is as different from the Buckeye Lake of the past as day is from night. He recalled the time when Buckeye Lake, with its wooden buildings, unsightly and unkempt, improperly policed, a purveyor of vice, was a place where no self-respecting man wished to take his family. All this is changed. Buckeye Lake today is conducted in a business-like manner, where women and children as well as men and boys can find recreation of the most wholesome kind and where every convenience and appliance of the most modern resort is in evidence. President Beggs complimented Mr. Deffenbaugh and his associates on their enterprise in carrying out the desire of the public for clean, wholesome amusement and for eliminating all those features which formerly detracted from the usefulness of one of the most beautiful sheets of water in Ohio. He assured Mr. Deffenbaugh and his associates that the people of Newark appreciate all they have done in raising the standard of the lake in a moral and physical way and assured them Newark will be glad to consider Buckeye Lake as one of its great opportunities for development and a place where its industrial employees may find relaxation and health.

Nine of the twelve directors with the manager and several others were guests of the lake management during the afternoon and evening. They inspected the many improvements made in the past 13 months which represent an investment of \$100,000. A number of them had not visited the lake in years. They were amazed at the transformation. The new pavilions, concrete walks, business structures, boat houses, play grounds and concessions caught their eye. They were shown scores of new cottages of the most modern type. There are some that range in value from \$500 to \$15,000 and the new Wehrle country home is said to have cost more than \$50,000.

The greatest change has been in remodeling the lake with the largest bathing beach. The unsightly boat houses have been torn away, a new building wall built and a promenade walk made along the curving banks. Next year an additional lake will be built just above this one and hundreds of additional cottages will be constructed along the banks.

The visitors inspected a huge water reservoir which is nearly completed on the highest promontory. This is to hold a reserve supply for emergencies. A new bathing beach has been built at the opposite end of the main lake, not far from Sumner.

The visitors were taken over the lake in one of the largest motor boats in the afternoon and evening. The night cruise gave them a splendid vision of the brilliantly lighted shore line buildings, a miniature Atlantic City.

One thing that particularly appealed to them was the splendid order that is preserved and the great number of women and children who are enjoying the advantages of the resort.

As Buckeye Lake grows, the management is confronted with serious health problems in the way of sewage and garbage disposal which are being met. A daily garbage collection system which is very efficient has been established. A sewage disposal plant has been installed. The management is employing the best talent to meet in an expert way the various problems of building up a summer city.

The Courts

Taking Examination.
John A. Thompson and Paul Henry, civil engineers in the office of the county surveyor, and Phil G. Horton, are in Columbus today, having been ordered before the examining board for the second training camp for reserve officers at Ft. Benjamin Harrison.

Appeals From Ruling.
Mrs. Anna Hartman has appealed from the ruling of the Industrial Commission of Ohio, to the Licking county court of common pleas, the claim for compensation from the state insurance fund, for the death of her husband, Emmet L. Hartman, March 23, 1917, while in the employ of the Ohio Light and Power company. The commission claimed that the death was not caused by injuries sustained in the course of his employment.

Justice Jones' Court.
An affidavit was filed against Homer C. Gray by his divorced wife in the justice court of U. M. Jones, charging him with non-support of his minor child. He gave bond in the sum of \$500 and his hearing will take place Saturday morning at 9 o'clock.

Justice F. S. Scott's Court.
The case of the state against Douglas Worley, charged with stealing wool to the value of \$135, which was to have been heard by Justice Fletcher S. Scott, the matter was continued until Saturday morning at 9 o'clock.

Ask for Rehearing.
The application for a rehearing in the case of the State of Ohio vs. Emmet Greenberg and Charles Kimmernann has been set down for hearing in the Probate court for Thursday morning at 10 o'clock.

SPREAD TETANUS BY COURTPLASTER; THREE ARRESTED

County Commissioners.
The county commissioners met in regular weekly session today and after transacting routine business heard the engineer's report on the Cunningham ditch, to be constructed if allowed, at Central City. A date will then be set for compensation and damages.

Marriage License.
Wm. Rodgers, a traveling salesman of Columbus, O., and Miss Anna Rita King of Buckeye Lake, O.

Divorce Petitions.
Two divorce petitions have been filed in the office of Clerk of Courts Bert C. Horton. Charles Oatman asks for a decree of divorce from Lillian Oatman. They were married in April, 1914. He alleges gross neglect and refusal of defendant to do household work, and states that she coerced him. They are the parents of two children, aged three and one years. Plaintiff asks for their custody.

Julia Fay seeks a separation from Gillsworth Fay. They were married December 7, 1911 and are the parents of two children, one aged five years and the other three months. He alleges in his petition filed in January, 1916, a separation took place because of the aggressions of the defendant. She also charges statutory offenses. Plaintiff also asks for the care, custody and control of the minor children.

Cross Petition.
In the case of Marie Wells vs. Fred Wells, the defendant has filed in answer and cross petition in probate court. For his cross-petition he alleges that plaintiff has refused to live with him and that she left the home in Columbus and came to Newark. Defendant asks divorce and custody of the child.

EXPORT HEAD RESIGNS; DIFFERED WITH CHIEF

Washington, July 18.—President Wilson today had before him the resignation of Dr. Edward E. Pratt, chief of the bureau of foreign and domestic commerce, department of commerce, and who as its head, was in active charge of the operation of the government's control of exports under the espionage act.

The resignation was submitted to the President at the request of Secretary Redfield, who beyond saying that Dr. Pratt had been removed for administrative reasons and for the good of the service, would make no comment today on his action. It developed, however, that the two men differed widely over the administration of export control. Dr. Pratt, who is regarded as one of the country's foremost trade experts, formerly was manager of the industrial bureau of the Merchants' Association of New York and lecturer at the University School of commerce there.

NOT IN DUTCH WATERS.
London, July 18.—The allegation of Dutch newspapers that part of Monday's encounter between British destroyers and German merchantmen which were attempting to run the blockade from Rotterdam occurred in Dutch territorial waters is generally discredited in naval circles here.

ACTIVITY IN RUMANIA.
Berlin, July 18, via London.—Increased activity on the Rumanian front is reported in today's official announcement. Artillery fighting has revived in the sectors of Archangel Joseph and Field Marshal von Mackensen. On the northern end of the Russo-Galician front in the regions of Riga, Dvinsk and Smolensk, the artillery engagements were more severe.

ROTARIAN PICNIC TOMORROW.
The Newark Rotarians are planning to go to Buckeye Lake tomorrow, rain or shine. The party will number 140 or more as the Rotarians will be accompanied by members of their families. They will go by automobile to Buckeye Lake park and by boat to Sumnerland beach, leaving the Chamber of Commerce headquarters at 9 a. m. Rain will not interfere with the plans as there is plenty of shelter and an indoor program is planned in case the day is rainy.

WORKHOUSE FOR SUFFERS IF \$25 FINE ISN'T PAID.
Washington, July 18.—The 16 members of the Woman's party arrested Saturday in an attempt to picket the White House were ordered today to pay a fine of \$25 or serve 60 days in the District of Columbia workhouse at Occoquan, Va. They decided to take the 60-day sentence. An appeal will be taken, therefore the suffragists have escaped with three-day jail sentences.

AMBASSADOR TO JAPAN.
Washington, July 18.—Roland S. Wells of Philadelphia has been chosen for appointment as ambassador to Japan to succeed the late Ambassador Guthrie. It is understood he is persona grata to Japan and that the nomination will go to the senate shortly.

Safe Milk for Infants and Invalids

Rich milk, malted grain, in powder form. For infants, invalids and growing children. Pure nutrition, upbuilding the whole body. Invigorates nursing mothers and the aged. More nutritious than tea, coffee, etc. Instantly prepared. Requires no cooking. Substitutes Cost YOU Same Price

TOMPKINS IDENTIFIED BY JOHNSTOWN WOMAN

Johnstown, Pa., July 18.—With statements of authorities that no other arrests will be made, clearing up of the mystery shrouding the deaths of Edmund I. Humphries, Philadelphia coal operator, Mrs. Humphries and their son, Edmund Jr., on a country road near here last Sunday is expected to depend on the completion of the chain of circumstantial evidence which it is declared has connected George C. Tompkins, a former business associate of Humphries with the triple tragedy.

Tompkins, who is held in the Chambers county jail charged with murder, was the only other occupant of the automobile in which the Humphries were riding when, he declares, the party was held up by masked highwaymen.

Mrs. George Naylor, whose husband yesterday identified Tompkins as the man whom he saw run out of a corn field near where an automobile was standing on the Ebersburg-Carrollton road Sunday, will be asked at the jail today, it is expected, to corroborate this identification. In the automobile at the roadside, Naylor declared, he saw the bodies of a woman and a boy.

Tompkins' attorneys are said to be preparing a defense, the basis of which it is understood, will be the suspect's hold up story.

TRIAL OF BOMB PLOTTERS IS NEARING THE END

San Francisco, July 18.—The trial of Mrs. Rena Mooney, now in its ninth week, for the murder of Mrs. Irene Van Loo, one of the victims of the preparedness day bomb explosions last July, neared its close today. The prosecution expected to conclude by noon the presentation of its rebuttal testimony after which arguments are to begin. Although the court has fixed no time limit on the arguments, it was believed by attorneys for both sides that they would be concluded Friday, allowing Superior Judge Seawell to give his charge to the jury before the day's adjournment.

Unless predictions of the attorneys go away Mrs. Mooney will learn her fate some time Saturday, one day less than a year after the explosion sent ten persons to their death and injured forty others.

BAUGHMAN BOY HAS TETANUS; ARM BROKEN

Robert Baughman, of 54 West Chestnut street, son of George A. Baughman, proprietor of the confectionary store at 10 West Main street, is lying critically ill at the Sanitarium, suffering from an acute attack of tetanus. A week ago while playing in a barn near the home, the boy fell from the rafters, splintering the bone of his right arm in two places. Recently tetanus set in, and yesterday he was taken to the Sanitarium in the Gray ambulance. Anti-toxin was administered. It may be necessary to amputate the injured arm. The Baughman confectionary store has been closed all day on account of the boy's illness.

"WAR BRIDE" WILL NOT BUY TROUSSEAU.

Columbus, July 18.—Uncle Sam has issued an appeal to women to abandon "styles" and conserve "clothes."

Miss Jessie Campbell, daughter of ex-Governor James E. Campbell and fiancée of Dr. J. C. Coons, is to have no trousseau.

"I have given it up entirely," said Miss Campbell Saturday, "because I do not think it is right at this time that any money should be spent on unnecessary clothes."

Miss Campbell is the first bride-to-be in Columbus to publicly take his stand.

Obituary

Beatrice Lake.
Beatrice Lake, aged 14, daughter of Joseph Lake, died at the family home, four miles from Frazzysburg, at noon Tuesday after an illness from tuberculosis. Her mother died some time ago.

She is survived by her father and one brother of the home. The funeral services will be held from the house at 1:30 o'clock Thursday afternoon by the Rev. M. Berkey of the Frazzysburg Presbyterian church. Interment will be made in the Frazzysburg cemetery.

SOCIAL CENTER FOR BOYS IN MILITARY CAMP.

New Lexington, July 18.—Colonel Tom O. Crossan of the Seventh Ohio Infantry, announced last night that the National Defense League of Portsmouth, has donated \$1,000 for the establishment of a recreation and social center for his regiment while in training camps. Col. Crossan also stated that Chaplain Sumner Martin has arranged with State Librarian Galbreath to furnish the Seventh with 500 volumes from the circulating library.

NEW ITALIAN MINISTER.
Rome, July 18.—Vice Admiral Del Negro has been appointed minister of marine to succeed Vice Admiral Arturo Triacca.

ENEMY DEPOSITS HEAVY.
Rome, July 18.—Returns from banks show enemy deposits in Italy exceed two and a half billion lire, says the Idea Nazionale.

Beautiful Bust and Shoulders
are those you will wear a scientifically constructed Ben-Jole Bra.

The drugging weight of an unsifted bust so stretches the supporting muscles that the contour of the figure is spoiled.

Ben-Jole bras put the bust back where it belongs, prevent the full bust from having the appearance of flatness, eliminate the danger of dragging muscles and confine the flesh of the shoulder giving a graceful line to the entire upper body.

There are the distilled and most serviceable garments imaginable—made in all materials and styles: Cross Back, Hook Front, Strapless, Bandeau, etc. Boned with "Walton," the most famous—springing without removal.

Have your dealer show you Ben-Jole Bras. If not stocked, we will gladly send him, prepaid, samples to show you.

BUCKEYE LAKE PARK.

By actual count, 2800 automobiles entered Buckeye Lake park on July 4. The crowd arriving on the trolley cars and by machines was estimated at not less than 45,000 people. The day passed without a single accident and without a single case of disorder. If one who 25 years ago was accustomed to go to the "reservoir," should today for the first time in a quarter of a century be set down in Buckeye Lake park he wouldn't recognize the place. In the old days the place looked like a forest of stumps in the water. Today with all of the stumps removed, with splendid retaining walls and a beautiful shore line, the ten miles of water looks like the real summer resort that it is. One doesn't have to look back 25 years, however. Six months is sufficient to note a wonderful improvement. Mr. E. R. Deffenbaugh, the guiding-hand of the new Buckeye Lake park, is accomplishing wonders, and yet he is only starting. The sewage disposal plant is completed and today Buckeye Lake park is the most sanitary summer resort in the state. The park's water supply comes from a well 800 feet deep and the water is absolutely pure. Today a 200-barrel reservoir storage tank is under construction in order to provide plenty of water when large crowds are present. In the place of the scores of unsightly boat stalls that surrounded Crane Lake is a modern boathouse, with 100 stalls filled with as good motorboats as ride on any body of water. Around Crane Lake is a new cement retaining wall dotted with brick columns carrying cluster-lights and at the border of this little lake runs a miniature railway the cars being drawn by a real steam engine. At present the 2000 cottages at Buckeye Lake are practically all occupied. So far this season 100 cottages have been built and at least 25 are now under construction. Values of real estate are rising rapidly and many improvements are being made by owners of cottages about the lake and upon the islands. Additional hotel rooms have been provided this season so that today 400 rooms are available for transient guests. There are apartments for families, a building for women and family bunks, every one as clean as one could wish. All of the rooms at the Mauger hotel, formerly known as the Glass, have just been newly-furnished and they are all the same price—a dollar a day for each person. A servise restaurant is in connection with the hotel as well as the regular dining room. Mr. Deffenbaugh has added a great many attractions to the park this season and some things he has had taken away. For instance, there are no slot machines, though it is known that an offer of \$5000 a year was made for the machine privilege. Plans have been prepared for a big modern hotel that will be built within a year or two just east of Crane Lake and to the north of the hotel site a new lake covering five acres will be built. This small lake is to be surrounded by cottages. The whole park scheme has been planned and nothing is being done at random. Cheap, temporary, shoddy construction is a thing of the past. Mr. Deffenbaugh has a vision of what the lake will be ten years hence, and he is working to that end. Every move he makes is in the right direction and the splendid service he is giving, the character of the

reagent and the beauty of the place are winning Buckeye Lake new friends every day. In spite of the rainy season Buckeye Lake park is doing a good business and people are coming from distant points to spend their vacation at the Atlantic City of Ohio. Buckeye Lake, 30 minutes from this city by trolley, and nearer by automobile, is indeed a valuable asset of Newark, just as Denison University at Granville may properly be called Newark's college. Both of these institutions are now undergoing wonderful development and their growth and prosperity will help to make this town grow and prosper. Yesterday afternoon, Mr. Deffenbaugh entertained the directors of the Newark Chamber of Commerce at the lake, taking the party to Summerville Beach and showing some of the Newark men over the whole park, after which dinner was served at the Mauger Hotel.

HERE AM I: SEND ME!

By Hapsburg Liebe. Also I heard the voice of the Lord, saying, Whom shall I send, and who will go for us? Then said I, Here am I, send me. Did old Isaiah ask where, or for what, he was to be sent? He did not. Listen to this little story of a Canadian, a strong and big-souled Canadian, whom I am proud to call one of my friends. I shall not add one breath of coloring to the bare truth, for the bare truth is quite enough—and enough to make some of our so-called patriotic Americans blush for shame, get it, for shame! I somehow got into a Sunday school today, Sunday, July 1, A. D. 1917—honest I did—and above-quoted Bible verse was in the lesson. It made me think of the Canadian. This fellow had come to our little city, taken out naturalization papers, and called himself an American—and a good American he was. We have lost from our midst a hero in his going back to Canada and therefore to Britain, the mother heart. He was getting along famously, had an ever-widening circle of friends and was a pronounced success in his chosen business. A few days ago this man went to Canada on a hurried visit. Nothing was farther from his thoughts than enlisting, when he went. He was an American, and he hadn't even had to put down his name in our recent general registration, because he was a little too old. But back in Canada, in his old home country, everywhere he turned he saw placards which bore sentences on the order of this: YOUR COUNTRY NEEDS YOU, AND IT NEEDS YOU NOW! Those placards were not calling to him; he was no longer a Canadian, but an American. But something vastly stronger than a placard was calling to him. He went straight to the nearest recruiting station, drew himself up like the super-man he is, and said to the officer, in charge— "Here am I: send me."

Truly, his is the finer spirit—God save him! This is the spirit that wins to immortality in the memories of future generations, the spirit that keeps the human race out of the ruck and mire of mediocrity and worse than mediocrity. This is the principle that is dearer to the man than life itself is dear to the man, the principle that holds the centuries—and centuries-old evolution of mankind on the upward instead of the downward plane. In here is the thing which sent our gallant Texan across a German trench with a small edition of Old Glory knitted to his bayonet. It came near to costing him his life, but what, after all, is life to a man of those golden ideals—when compared with those ideals? They are the true builders of civilization, these men. They have built it, what there is of it, on the rack and the wheel, the stake and the cross. "Here am I: send me!" Go out under the stars and think about it. Don't forget to read the newspaper advertising before making purchases. It gives you a list of merchants who are so sure of the value of their goods that they will spend money to solicit your trade. The fact that the official bulletin can't state their own losses does not prove that they can't give the enemy's with great exactness. At the present price of leather, old shoes are too precious to throw at the departing bride or the black-yard cats.

Daily History Class—July 18. 1792—John Paul Jones, naval hero of the Revolution, died in Paris; born 1747. Jones was a surname assumed by this eccentric Scotchman, who was christened John Paul. 1864—Lincoln consented to treat with agents from the Confederate states for peace. 1872—President Benito Juarez, liberator of Mexico, died; born 1806. 1915—Italian cruiser Giuseppe Garibaldi sunk while engaged in bombardment by an Austrian submarine. 1916—Germans launched heavy counterattacks on the Somme and recaptured Delville wood and Longueval. ASTRONOMICAL EVENTS. Small partial eclipse of the sun, visible only in the Indian and Antarctic ocean. At the point of greatest eclipse less than one-tenth of the sun's diameter will be obscured by the moon.

UPS AND DOWNS IN PEKING.

(Cleveland Plain Dealer.) American amazement at the news of the re-establishment of the Manchurian monarchy had scarcely begun to abate when the report came that the child emperor had again abdicated, this time after a reign of a week, and that the republic was reasserting itself. Events have moved so rapidly and so astonishingly at the Chinese capital that anything like certain judgment and interpretation is impossible to an American observer who must base his deductions on the current reports. Were the rest of the world profoundly at peace the events in China would be of great interest and importance. In the present state of almost universal conflict the developments are of even greater import, though their interest is dimmed by the glare of the battle fronts of Europe.

It is the custom to seek and find a Japanese or anti-Japanese motive in Chinese events. It now appears possible that Japan has had little or no part in arranging either the revolution or the counter-revolution which have recently distracted the Chinese capital. It is at least possible, if not altogether probable, that the Manchou coup was made in Germany. The restoration of the regime would assure Chinese neutrality. The republic was headed straight for war.

There was speculation to the effect that Japan was urging the republic toward belligerency and speculation to the effect that Japan was exerting her utmost influence to keep China out of the war. Facts and arguments were presented on either side. The only clear fact was that the republic was determined to fight, with or without Japan's blessing.

The only way to keep China neutral was to overturn the republic. It is difficult to believe that Germany at this critical time can readily afford to spend money in the Far East, but there are indications that she has been sending money rather lavishly. The business is no more hare-brained than the Indian "revolution" which German agents in the United States and in the Orient attempted to engineer. The plot, if it was, was even more penuriously successful. The instigators failed to give adequate consideration to the fact that China is already partially awakened, and can no longer be manipulated as an inert organism.

German instigation of the imperialist coup is an easily believable explanation, inherently far more likely than the hypothesis of a Japanese origin. It is in keeping with Germany's world policy, and the undertaking stood to be of positive benefit to Germany. The establishment of a strong military empire in Peking could not possibly be of advantage to Japan.

PASS THE FOOD BILL.

(Philadelphia Record.) Those 400,000 farmers who have made a vigorous request of the senate that it pass the food bill without any further trifling and pottering represent the practically unanimous sentiment of the country. They endorse the bill both in theory and in practice, and are indignant that its passage should have been delayed by piffing arguments over prohibition and the injection of questions and amendments that are alien to the fundamental purpose of the measure. Apparently there is no opposition except that of speculators and special interests, but in obedience to the best interests of the senators drone away the time, reluctant to pass the bill, but afraid to defeat it. Inasmuch as the fate of the entente nation is supposed to rest upon the ability of the United States to feed them, and as the future of this country is bound up with that of its allies, the demand of the farmers should carry great weight. The impatience thus expressed is of a piece with that of many housekeepers when asked to sign cards pledging themselves to carry out Mr. Hoover's plans for the prevention of waste and the conservation of food supplies. The women believe firmly in Mr. Hoover and are in thorough sympathy with his ideas, but they are moved to righteous anger when this sacrifice is asked of them at a time when the senate of the United States trifles with the national welfare and dawdles along in silly and futile debates over irrelevant subjects. Why, the women ask, should we be called to assume such a burden under such circumstances? and many refuse to sign.

It is greatly to be regretted that there is no drastic method for impressing upon congress the general confidence felt by the American people in Mr. Hoover and the plans he has worked out for keeping the price of food within reasonable limits. If the extent of this confidence could be realized by senators and representatives they would be quicker to act. It would be particularly gratifying if the women could make their influence felt in this all-important matter.

KAISER AND JUNKER.

(Saturday Evening Post.) In Prussia, containing about two-thirds of the population of the German empire, the electoral franchise is so arranged by class and property restrictions that 15 per cent of the voters wield two-thirds of the electoral power. Electoral districts for the imperial reichstag—corresponding to our house of representatives—stand as they did at the founding of the empire; so Berlin, with three million inhabitants has only six members. Other strongholds of liberalism are similarly disfranchised. Above the reichstag sits the Bundesrat, virtually controlled by the Kaiser and the Prussian nobility. Ministers of state are not responsible to parliament, but to the Kaiser alone. Such is a rough sketch of the scheme by which Kaiser and the Junker class pretty fully dominate the German empire. Liberal Germans—more than four millions of them voting the Socialist ticket—resent it, and for years have hoped to remodel it on a democratic plan. A revolution sufficient to over-

throw that caste domination of Germany is the most desirable event man can now imagine. The German people, long under a Junker rule, can have an honorable and lasting peace—can give honorable and lasting peace to the war-torn world—by throwing off their noble incubus and asserting genuine government of, by and for the people. Certainly the United States, and undoubtedly the allies, would find no difficulty in discussing peace terms tomorrow with a triumphant democratic revolution in Germany. It is the most desirable event man can now think of; the event that would make most for human weal; an event which millions of Germans have desired.

Spirit of the Press

Back in the Field. The restoration of the Chinese monarchy was not a howling success so far as the monarchists were concerned. The young man who assumed the title of emperor, Hsuan Tung, has abdicated for the second time, and on this occasion following a much briefer reign. The forces of the republic are again in full possession of the government and democracy in China seems fairly safe once more.—Buffalo Commercial.

Gen. Scott's Report. General Scott makes a gratifying report on the Russian troops. He saw them fighting, and he finds their spirit admirable, their supplies adequate, and their officers excellent. The Germans have evidently given up all hope of a separate peace with Russia, and even of Russian inactivity. In view of the fact that the only plausible German excuse for the war was the necessity of breaking the Slav power, and saving Western Europe from the Cossacks knouts, the Russian people could hardly be expected to listen very attentively to the affectionate words of the German Chancellor. Apart from this race issue, the Russians are alive to the fact that if the Kaiser shall win the war he will not tolerate a Russian Republic on one side of Germany and a French Republic on the other.—Philadelphia Record.

Congressional Record. Our old friend, the Congressional Record, is coming into considerable prominence again, due to somewhat bitter attacks against the practice of some members of our national legislature of having printed all sorts of things in the Record, so that copies may be mailed guileless citizens, purely for obtaining "leave to print" speeches they never delivered on the floor. Since the opening of the present session of Congress, and up to a few days ago, 29 poems, 54 editorials, 70 articles, 26 speeches, 169 letters and 713 telegrams, the authorship of which was entirely outside Congress, have been inserted into the Record. This, of course, does not include the speeches by members which never were delivered, but which are sprinkled in that quaint manner "cheers," "laughter," etc. And yet many congressmen wanted to put all kinds of censorship upon the newspapers.—Memphis News-Scimitar.

Pointed Paragraphs

"It is always easy to do right," declares a Louisville minister. That brother pastor! and the same sentiment with the devil that we've had.—Houston Post. Nothing so strengthens Bethmann-Hollweg's conclusions regarding the horrors of war as to have 40 years' careful preparations all go wrong.—Washington Post. The only way to break a young girl of the pick-eating habit is to tell her confidentially that if she continues it she will have a no girl, which is something that no girl wants.—New Orleans States. After all, Uncle Sam is merely a rich young freshman in the war college.—Savannah News. Since the senators evidently don't know what they want, why don't they turn the job over to Hoover, who at least thinks he does?—Boston Advertiser. "We have many enemies, but not too many," boasts Field Marshal von Hindenburg. German diplomacy can be trusted to create more if the Kaiser feels the need of them.—New York World. Political pullers are notified that in a war for liberty the principles of the senate deal will be applied at the very outset. Exemption is to be a matter of fact and not of favor.—Washington Star. The President is not going to draw the first number in the draft lottery, since he does not believe in doing anything blindfolded.—Washington Herald. Food Controller Hoover now seems to have gained the co-operation of everybody but Congress.—Savannah News. It begins to look as though the government would have to draft some draft boards, or allow them to play politics.—Rochester Herald. Republican Leader Mann says we are "sny crazy." Well, admit we are crazy to see a spy get what's coming to him.—Macon Telegraph. If the embargo makes food in Germany as high as it is here we give the war two more weeks.—Boston Transcript. World history will record that the first part of the American-German war was spent in the American Congress in continuing a Prohibition fight which had been in progress for fifty years before Wilhelm undertook to blast his way to Paris and murder the women and children along the road.—Louisville Courier-Journal. Any little sneer at people as "sny crazy" helps some toward making life more comfortable for the spy.—Washington Star.

AMERICAN FARMER—"YOU WILL HEAR FROM ME FROM NOW ON!"

RED CROSS HELPERS TURN OUT SUPPLIES FOR ARMY HOSPITALS

The Red Cross work is progressing nicely, and the work room in the high school will be open all day Thursday to anyone who will help. The room is very pleasant and the Domestic Art sewing machines are used, and there is also a fine table used for cutting. A great many women have responded to the call for helpers, but the room is large and more people can be taken care of.

There is a call for knitted surgical sponges. These are not the same as the knitted wash cloths, but are used by the surgeons in their work. The following directions are given: Knitted Surgical Sponges. Dexter knitting cotton, No. 8, three-ply; M. and K. knitting cotton, No. 10, three-ply or equivalent; Knitting needles, No. 5, amber or equivalent, cast on 35 stitches. Knit two ribs on one side and one rib on other (over and back is one rib). Knit one stitch, put thread around needle, knit next stitch and repeat to end of row. Knit the knitted stitch drop the thread around needle and repeat to end of row, and repeat instructions until you have ten of the double rows and nine of the single large mesh rows, and finish. Two boxes are being packed now—one containing surgical dressings alone, bandages, cloths, etc., but people and organizations do not send in a few things at a time; they wait until a dozen or so articles are completed, and they are all sent in together. Much interest is being taken in the work, and the committee earnestly invites all people to come Thursday to the high school and help.

Readers' Viewpoint

The Farmer's Viewpoint—City Helpers. Several weeks ago when everyone outside the farming class, from President Wilson down, was urging the farmers to plant big crops, we heard a great deal about the farm volunteers and the business and professional men who were going to help the farmers with their crops! Much valuable space in newspapers was used in telling how it was to be done. Even the wives of the city men were going out to help the farm women with their extra harvest work. Now it develops that in many places these would-be helpers refuse to help, and say they were only joking. Now, as a matter of curiosity, many farmers would like to know how many city men have helped on the farm, and we suggest that the Chamber of Commerce start a roll or honor of the names of all the business, professional, laboring men or women of Newark who have left their own work for a period of a single week. Why not have some badges made for them, or have some large cards printed to display in the windows of the lucky ones in this patriotic move to help the farmer? Why not display them in a parade of daily-decorated automobiles at the Merchants' and Farmers' picnic as heroes in the great drive against the high cost of living? Farmer. Reaping Kansas Crops. Kansas, expecting enormous crops, is worrying less than usual about getting them harvested. Instead of sending forth the old, frenzied call for harvest hands, the state has arranged to do her own harvesting. It is reported from Topeka that it may not be necessary to import an extra helper this season. Organization and co-operation have solved the problem. City and country are helping each other cheerfully and intelligently. Not only have the city dwellers volunteered for actual work in the fields, but large numbers of them who are expert motor car operators have agreed to up-

THE ADVOCATE'S TALKING POINT

This is the true nature of home—it is the place of peace; the shelter, not only from all injury, but from all terror, doubt and division. In so far as it is not this, it is not home; so far as the anxieties of the outer life penetrate into it, and the inconsistently-minded, unknown, unloved, or hostile society of the outer world is allowed by either husband or wife to cross the threshold, it ceases to be home; it is then only a part of that outer world which you have roofed over, and lighted fire in.—John Ruskin. Gee Whiz! "He said that he would die for me, I fear he is a liar!" "Oh, no," her friend replied, "for he is brave, you know a dyer."

The New Baby.

Aunt Caline says—They hev a new baby down Fat Ami Apple's so as I hadn't saw it I run down there las' nite. Well, Bee was as proud a-shewin' off the kid an' says she, "Aunt Caline, don't you think baby is the livin' im'idge of Ami?" At this Ami snorted an' says, "I s'pose the kid's all rite, Aunt Caline, but I ast you as man to man—oh, well, I don't mean that, ezactly—but I ast you do you look like that? I know I'm not much to look at, but is my mouth a slit across my face an' does my nose look like the top of a screw?" he says. An' Bee busted into tears an' Am he took his hat an' went out an' slammed the door on the cat's tale.

I look like like that? I know I'm not much to look at, but is my mouth a slit across my face an' does my nose look like the top of a screw?" he says. An' Bee busted into tears an' Am he took his hat an' went out an' slammed the door on the cat's tale.

Where Does He Belong?

Now that we have found A. Twitty of Darlington, S. C., we don't know what to do with him; can you place him, Luke? So Long. John Barleycorn, as you dismount the throne that you have held so long. Men will be happier as they count the headaches that must go along.—Washington Star.

The other Ex's, Con and Nick. To join you'll probably make haste; All right, take them the headaches quick, And also add that dark brown taste.

The Breath of Suspicion.

The main reason why we think it is all right for a girl to smoke cigarettes in a restaurant is that nobody loves her anyway.—Dallas News. God probably loves her but then he'd never have to kiss her.

Huh! She'd like to marry old man Lears, At his age she won't scold. For while he is well on in years, She knows that he's well off.—Luke McLuke.

Now I suppose that it would miff The lady, should I tell. But honestly, 'twould suit her if He were not quite so well.

Did You Know That the largest known cavern in the world is Mammoth Cave? It is in Edmonson county, Kentucky, on the left bank of the Green River, about 130 miles from Lexington. The entrance to the cavern is about 200 feet above the level of the Green River and about a quarter of a mile from its banks. The total magnitude of the cave has not yet been ascertained. The temperature of the cave is uniformly 59 degrees and the air is very clear. About twenty species of fish and insects are found here all of them without eyes.

UNAUTHORIZED USE OF THE RED CROSS

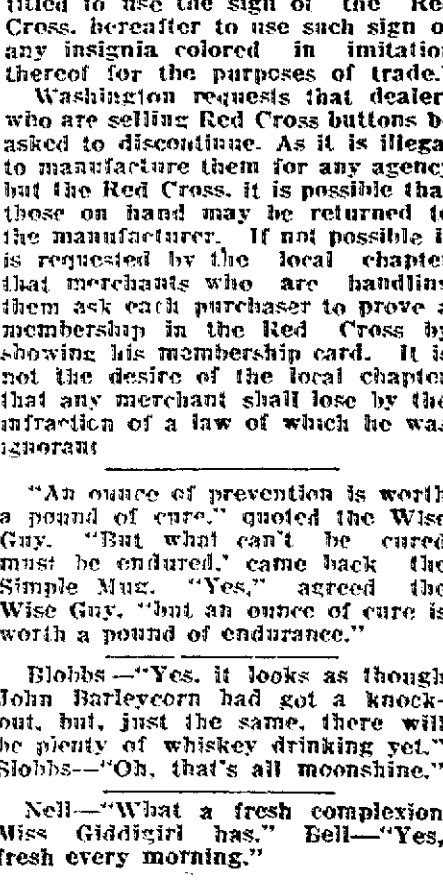

A recent communication which the Newark Red Cross Chapter has received from headquarters states that it is the Chapters' duty to see that there is no unauthorized use of the Red Cross insignia. According to the Charter, Section 4, "It is illegal for any person to wear or display the sign of the Red Cross, or any insignia colored in imitation thereof, for the fraudulent purpose of inducing belief that he is a member of, or an agent for, the American Red Cross. Nor shall it be lawful for any person or corporation, other than the Red Cross of America, not now lawfully entitled to use the sign of the Red Cross, hereafter to use such sign or any insignia colored in imitation thereof for the purposes of trade." Washington requests that dealers who are selling Red Cross buttons be asked to discontinue. As it is illegal to manufacture them for any agency but the Red Cross, it is possible that these on hand may be returned to the manufacturer. If not possible it is requested by the local chapter that merchants who are handling them ask each purchaser to prove a membership in the Red Cross by showing his membership card. It is not the desire of the local chapter that any merchant shall lose by the infraction of a law of which he was ignorant.

Abbe Martin

You got fifteen minutes left? We hear very little of some folks 'cause they attend to their own business. You might just as well carry a banner readin' "Keep away" as go about with a long face. "An ounce of prevention is worth a pound of cure," quoted the Wise Guy. "But what can't be cured must be endured," came back the Simple Muz. "Yes," agreed the Wise Guy, "but an ounce of cure is worth a pound of endurance." Blobs—"Yes, it looks as though John Barleycorn had got a knock out, but just the same there will be plenty of whiskey drinking yet." Slobs—"Oh, that's all moonshine." Nell—"What a fresh complexion Miss Giddigirl has." Bell—"Yes, fresh every morning."

MONEY WASTED

The money and time spent in giving your family a musical education is all lost unless you get them a piano that will have a pure tone and continue to retain that pure tone as long as it lasts. Hundreds of dollars are thrown away annually because the child has been taught the piano at some school or in a home where a high grade piano has been installed because of its pure tone, and then comes home to drum on a piano of no tone quality. You need not experience this difficulty if you get a Jesse French piano at P. J. Fairall's, N. Fourth street. 18-17.

Society

(Society Editor, Auto Phone 23123.)

Mr. and Mrs. Allen Starkey of Hebron entertained at dinner Sunday Mr. and Mrs. Webster Snelling and son Pearl of Amsterdam and Mr. and Mrs. Marcus Tisdale and daughter Catherine of Outville.

Miss Justine Pearsall entertained at the home of Mr. and Mrs. George A. Ball, Jr., Hudson avenue, with a garden party, out of compliment to Miss Dorothy Fairfield of Westfield, Mass., the house-guest of Miss Martha Grace Miller.

For the pleasure of the guests the ball garden was arranged for dancing by a canvas stretched over the lawn. Dancing was enjoyed to the music furnished by an orchestra from Greenville and refreshments were served.

Miss Pearsall's guests were: Miss Dorothy Fairfield, Miss Lillian Weisman of Cincinnati, Mrs. Lee Huff of Huntington, W. Va., and the Misses Gladys Lindorf, Lillian Lindroth, Dorothy Swisher, Helen Vogelmeier, Eleanor Johnson, Virginia Miller, Martha Grace Miller, Thelma Mazey, Nellie Morse, Frances Fitzgibbon, Maxine Davis, Virginia Warner, and Messrs. Dale Warner, Rod, Miller, Fair Adams, Frank Spencer, Elwin Davies, Eaton Booth, Sol Schonberg, Gaylord Mercer, Arthur Schawewer, John Kilpatrick, Philip Puckett, Donald Power, Edward Pearsall, and Frank Courben of Columbus.

Mr. M. Schonberg and Mr. and Mrs. Arthur Weisman are entertaining with a 6 o'clock dinner this evening at their home, Hudson avenue, the following out-of-town guests:

Mrs. Sarah Weisman and daughters, Mrs. Leo Kessel of Lancaster, and Misses Lillian and Rose Weisman of Cincinnati, Mrs. J. Altfatter and daughters, Mrs. Jack Balles, Mrs. Erstein, and Miss Ruth Altfatter and Mrs. James Altfatter of Lancaster.

For the pleasure of Miss Susie Cooney of Lima, and Miss Dorothy Fairfield of Westfield, Mass., Miss Eleanor Johnson delightedly entertained at her home, Hudson avenue, Tuesday afternoon, with a porch party. The guests brought their knitting and the afternoon was spent informally.

The Woman's Home Missionary Society of the First M. E. church will meet with Mrs. John Sachs tomorrow at 2 30 o'clock.

Mrs. A. H. Rickert is entertaining the people who are knitting for the D. A. R. at her home, North Fifth street, this afternoon. Wool to the amount of \$100 has been given out, and returns are expected soon. This afternoon ways and means will be discussed to plan for the money to buy \$125 worth of wool, and "more knitters" is the call.

In the window of the Carroll dry goods store may be seen the results of the knitting. On display are sleeveless jackets, helmets, wristlets, scarfs and other articles for the men of the navy.

Mrs. Joseph Sprague entertained Mrs. Daniel Altfatter, Mrs. E. C. Wright and Mrs. Robbins Hunter at the Country Club, Tuesday, at luncheon and bridge was enjoyed in the afternoon.

Miss Thelma Mazey is entertaining at the Country Club this evening with a dinner-dance out of compliment to Miss Fairfield of Westfield, Mass. Covers will be laid for eighteen guests.

Announcement is made of the engagement of Miss Margaret Wing, daughter of Mr. and Mrs. Charles M. Wing, 231 West Tenth avenue, Columbus, to Prof. Homer L. Dodge of the State University of Iowa faculty. Mr. and Mrs. Wing formerly lived in Newark.

Greene-Hilliard.

[Special to The Advocate] Lakeside, O., July 18.—Simplicity marked every detail of the wedding of Miss Josephine Hilliard and Mr. Oscar Kenneth Greene, which was solemnized at the Lakeside M. E. church this morning at 8:30 o'clock. The couple was unattended, and the ceremony which was read by Dr. Jesse Swank of Marion, O., was witnessed by the family and friends who had been informally invited to the church.

Preceding the ceremony, Mrs. Massey, a sister of the bride, sang "Oh, Promise Me." The opening strains of Lechgrin's wedding march, played by Miss Alma Hilliard, also a sister of the bride, the bride and groom took their places at the altar.

The bride's gown was white crepe de chine, with maline hat trimmed with orange blossoms, the gift of her sister, Mrs. Street of Riverside, Cal. Following the ceremony, a wedding breakfast was served at the cottage to the members of the immediate family and two guests—Miss

How To Get Rid of Corns

People suffering from tired, swollen, aching feet, find relief in the use of Iodo-Mint. It is a powerful, yet gentle, remedy that will quickly remove a corn or callus and prevent its return. It is the only remedy that will not cause any pain or soreness. From your druggist get a small jar of Iodo-Mint. Rub a little on any painful corn or callus. Instantly the pain will disappear and in a short time the corn or callus will loosen and can be lifted out easily with the fingers—root and all—leaving the surrounding skin in a healthy, normal condition. When you stop to consider that the simple, pleasant process of rubbing a little Iodo-Mint on the foot at night will shortly rid you of every painful corn or callus and will keep the feet cool, comfortable and rested on the hottest days, it is easy to understand why it is thought that foot troubles will soon be a thing of the past. Iodo-Mint is an entirely new departure from the discreditable old time foot remedies, inasmuch as it is absolutely harmless and causes no irritation. It is a creamy preparation, which is delicious and easy to apply. It costs little and can be obtained from any of our local druggists.

PLEASING VISION OF THE EARLY FALL

The coming of the fall season brings with it a stunning array of original and smart afternoon costumes of which the one shown above is the most attractive. The dress is of gray georgette combined with dark blue satin trimmed with dark blue beading. The combination is striking and most pleasing to experienced eyes. The hat is of blue velvet with a facing of gray gorka feathers.

Ethel Voorhes of Columbus, O., and Miss Edna Schrupp of Sandusky, O., sorority sisters of the bride. The color scheme was green and white, dainty favors being at each place. Mr. and Mrs. Greene left on the noon boat for a trip on the Great Lakes, returning to their home in New Providence, Ia., in about ten days. The bride is the daughter of Mary A. Hilliard and the late J. V. Hilliard of Newark, O., and she has been principal of the New Providence high school for two years. Mrs. Greene is a graduate of the Newark high school, class of 1911, also, a graduate of Denison University. Mrs. Greene is in the government service.

Milady's Boudoir

The Effect of Care in Dress. The stout woman should study the effect of dress, by so doing she will be able to overcome to a certain extent the appearance of stoutness. To many the face and chin are the members that first convey the truth to those you meet. The manner in which you dress, the neck will either enhance or reduce the stout appearance.

If the face is too fat it is usually accompanied by an equally fat body. The cause of obesity is a too abundant of accumulation of fat in the cellular tissues of the body, and when hereditary, it arises from numerous causes, such as overindulgence in sweets and fatty foods, or possibly want of exercise. It means a great deal of time and patience if the stout woman would keep her flesh within fashion's boundaries.

The present day mode of hairdressing does not permit of straight lines, and in consequence artificial means must be used to curl the hair. Heated irons should never be used for curling the hair. Their use will injure the hair follicles, causing the hair to split, become dry and come out.

If one finds difficulty in keeping the hair curled even when it has been done in kid curlers, moisten the hair lightly with glycerine and rose water. This solution causes it to become a trifle sticky and more adaptable to the curling process.

Every Day Etiquette.

"How shall I send out my wedding invitations for a small affair?" asked Heien.

"If the wedding ceremony is to be at the bride's home and to be witnessed by only a few friends and relatives the bride and her mother invite these by personal notes, while engraved invitations are sent to the reception guests when a large reception is to follow the private ceremony," said her aunt.

"Mother, when is the proper time to send flowers to a funeral and what should I write on the card?" asked May.

"Flowers may be sent any time before the funeral, only be careful to have them arrive several hours before the service, as it is most disconcerting to have florists' boxes coming in at the last moment.

"The card alone is sufficient. You may pencil 'with sincere sympathy,' however 'if you like,' answered her mother.

Granville

[Special to The Advocate]

Granville, O., July 18.—The thirty-sixth session of the Ohio Baptist Assembly will be held on the Denison campus, August 2-12, and the event is anticipated with enthusiasm by residents of Granville and the surrounding community. In connection with the chautauqua course of unrivaled attractions, the people of the town as well as the visitors will enjoy a rare privilege. As has been truly said: "A more delightful spot for a 10 days' outing in the best of company and under the most favorable conditions, could scarcely be imagined. Denison campus is a beautiful park, Sugar Loaf, Mt. Pleasant, Flower Pot Hill, Spring Valley, Lovers Lane, and the valley of the Raccoon afford ample opportunities for pleasant rambles. Fine roads lead out of Granville in every direction and autoists will be delighted with the great variety of scenery presented at every point.

A large number of tennis courts are ready for the young people. Two large sanitary swimming pools—one for men and one for women—giving opportunity for a refreshing plunge, are among the attractions.

Young people are asked to bring musical instruments, tennis rackets and bathing suits.

Prof. Walter J. Livingston, Denison University physical director for men, will have charge of the assembly athletics.

Rooming may be had in Shephardson College buildings, Stone, King and Burton halls, in Marsh and Talbot halls on the hill, and a few rooms in private residences are available. All meals will be served at Shephardson commons. Readers of The Advocate can be more fully informed as to terms, reservations, etc., by ringing W. A. Holmes, phone 5189.

Several new workers were present at the meeting of the A. F. F. W. on Tuesday, and the amount of work for the week was up to the average. At the business meeting, Mrs. Biggs read some letters from Paris, and called on Mrs. E. Clemons for a reading. She gave "The Making of the Flag," by Mrs. Emma H. Lathrop, in most effective manner. The cash received was from Mrs. J. L. Wylie, \$50; Mrs. J. D. Grissinger, \$1; Mrs. C. E. Stanton, \$5.

Stenographers! You need not lose your position: wear a Gossard corset and increase your output. Ask McEwen's Beauty Shop. 7-18-21

FIGHTING FOR HAPPINESS

When you get into a frame of mind that makes life seem one tiresome duty after another, with no pleasure in it; when ill health seems to take all the joy out of life and you worry over things that are really not worth worrying about, then your nervous system is becoming exhausted and you are approaching neurasthenia.

Your happiness is worth fighting for and red blood is your best ally. It is a hopeless task to try to restore your health while your blood is deficient in quantity or quality.

To build up the blood there is one remedy that has been a household word for a generation, Dr. Williams' Pink Pills for Pale People. They tone up the entire system, make the blood rich and red, strengthen the nerves, increase the appetite, put color in the cheeks and lips and drive away that unnatural tired feeling.

The Dr. Williams' Medicine Co., Schenectady, N. Y., has published a free book on nervous disorders that contains a chapter on neurasthenia, in which the symptoms are fully described and the correct treatment given. Dr. Williams' Pink Pills are sold by your own druggist or will be sent by mail, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50.

Personal

Mrs. T. H. Foos and children of Bellevue, Ky., are here for a two weeks' visit with relatives.

Dailey Hewett of Keiser, W. Va., is spending the week with his father, Mr. Charles Hewett of this city.

Miss Joan Weeks of Chicago, who has been visiting Mary Carl of West Church street for the last ten days, left today for Tiffin, O.

Miss Helen Vogelmeier was the guest of Miss Thelma Mazey last evening. The Vogelmeier family is spending a few weeks at Buckeye Lake.

Edward Ewald, who has been engaged as an end-man in the Al. G. Fields' minstrels, went to Columbus today where he will attend a rehearsal of the company.

Frederick Connel, 60 North Fifth street, went to Columbus today on business.

Louis Rumsey, who has been visiting for a few days at the home of J. L. Lippincott, 127 Eleventh street, leaves today for his home in Ames, Iowa. Mrs. Rumsey will remain in Newark until September, visiting at the Lippincott home.

Mrs. Roe Shay of Zanesville, is visiting with her sister, Mrs. Vance, of the Henrietta apartments.

City Solicitor Ralph Norpell was in Columbus today on business.

Mrs. J. J. Fitzgerald and children of Chattanooga, Tenn. are in the city the guests of Mrs. Frank Bader, Granville street.

Miss Helen Harbottle, who has been visiting relatives in Trinway, has returned home.

C. W. Thompson, the well-known special representative of the Mutual Life Insurance company of New York, with offices in the Fleek building, West Main street, is in Columbus today taking the examination for the second officers' reserve corps training camp at Ft. Benjamin Harrison.

Miss Laura Pigg of the Edmiston store, is spending her vacation in southern Ohio.

Leon Pfleger of Ironton, is the guest of Harold Hulshizer.

W. H. Mazey is a business visitor in Columbus today.

W. S. Daly of North Fourth street, is spending a few days in Toledo, his boyhood home, which he has not visited for 20 years.

Mrs. Guy Davis left yesterday for her home in Pittsburg, after having been called here by the death of Ambrose Schaller.

Mrs. Elizabeth Tuskac and son Joseph and daughter Rosie, are visiting at the home of Mrs. Agnes Bobot, 548 Daniel avenue.

Miss Laura Reppert left for her home in Redding, Pa., after spending her vacation at the home of Mr. and Mrs. J. D. Heatwole, 128 Fairfield avenue.

Manager Ostrov of the Bargain Shoe store, is in Zanesville today on business.

Miller Beuchler, who has been a guest of F. W. Lippincott for the past four days, leaves tonight for his home in Toledo.

Mrs. E. Maple and daughter Lila, who have been visiting for a few days at the home of Mr. and Mrs. L. N. Bradley 27 1-2 North Fourth street, leave Friday for San Francisco, stopping off at Piqua for two days.

Our Boys and Girls

The moods of a child are nature's sign posts, they tell us which way to go to guide the child to the best manhood and womanhood, how to save waste of strength and time in training. Waive indulgence in his moods unchecked and unrestrained you will be able to tell just what it will be by and by.

Amusements

AUDITORIUM. Star Aids Red Cross. Grace Baird has "come across"—and nobly—in aid of the Red Cross war fund. She has won an entire week's salary to the cause and only the star and her manager, and the Red Cross authorities know and are proud of it.

Miss Baird is a lovely young woman and her salary runs into a goodly sum each week, for this Mrs. Penberg of the Auditorium can attest.

Miss Baird thinks it is up to every stage speaking star to follow her lead in setting aside a week's income for the war effort and she is doing it.

The Red Cross has been a source of the successful prosecution of the war as upon the army and navy. She believes those who prosperly depend on the favor shouldn't hesitate to show their appreciation by doing their bit to care for the young men who are called to defend the nation.

The Red Cross, however, did not see the beginning but will have seen the end of Miss Baird's generosity. She has already done for the Liberty Loan and a year or so ago, before this nation was involved in the world struggle—she was giving freely of her money to aid the Red Cross war fund.

Miss Baird is not a happy number of the Auditorium stock Co. and hopes to assist in every way all worthy projects of the Red Cross citizens undertake in the war relief.

THURSDAY MORNING SPECIALS

Don't Fail to Take Advantage of These

Tomorrow means another half-holiday, and in order to crowd an entire day's business into the morning hours, we have selected a most seasonable list of extraordinary values. Twelve of them are quoted below and you can rest assured that the balance equal these in every respect. Store opens at 8 a. m., and quantities are limited, so get here early.

episode No. 4, is the added picture feature at the Auditorium today in connection with George Beban, in "A Roadside Impression."

Norma Talmadge in "Fantasia" is to be seen again at the Auditorium theater on Sunday next. This big Selznick masterpiece has repeated at almost every city in the country to record breaking business and no doubt many who did not see it when here before will see it Sunday. The story is of Russia, by Monckton Hoffe and was directed by Allan Dawn.

"The Siren." Valdesia Suratt, in "The Siren" for Friday and Saturday will show to the feminine sex of Newark many of the world's latest fashions. Miss Suratt always has something new to offer and is rightly named the Empress of Fashion.

"The Traveling Salesman." The "Traveling Salesman," a comedy drama will be the Auditorium Stock Co. production for the first three days of next week. This is the play that Frank Mcintire starred in and became famous.

"The Crackman's Nest." The Auditorium Stock Co. are hard at work rehearsing "The Crackman's Nest," the bill to be offered Thursday, Friday and Saturday of the present week. "Within the Law" will be seen today for the last time.

"The Birth of a Nation." Mr. Penberg has booked "The Birth of a Nation" for an engagement, the dates to be announced later.

Chinese Actor. Hop is one of the latest actors to join William Fox's comedies. Hop runs about silently, and never says a word unless one asks him a question, in which case, Hop merely smiles and nods his head. Hop is a Chinese and was needed in the Valdesia Suratt picture, "The Siren," to run a humor. He did it with such skill that he overbalanced West as "Uncle Tom."

TO RECONSTRUCT OUR WAR WRECKS

Big Estate In New Jersey Opened For Service In August.

TRADES WILL BE TAUGHT

Three of These Hospitals Are to Be Put in Operation Under the Administration of the Red Cross, Where Maimed Soldiers Can Be Restored to Their Former Usefulness.

No branch of war relief work has proved more important in Europe than that done in the "reconstruction" hospitals far from the front. In these hospitals men suffering from bone wounds and men with missing members are "reconstructed" and taught useful trades so that they may not be a burden to themselves or to the community.

The United States will have three of these "reconstruction" hospitals administered under control of the Red Cross, and the first of these will be opened late in August at Iselin, N. J., on a tract of land donated by Mr. and Mrs. Charles D. Freeman. This site is ideal for the purpose. It is situated on high ground covered with woods and pleasant fields.

Here the convalescents will be received and restored to their former spheres of usefulness or taught new trades. Missing limbs will be replaced by artificial ones and every effort made to prove to them that their sacrifices to democracy have not been in vain.

Can Accommodate 2,000 Men.

Announcement of the gift and of the plans for opening the hospital is made by Dr. Fred H. Albee, who will be in charge of the work. Dr. Albee's success in bone surgery makes him the ideal head of the institution, as he has won fame for himself in the medical profession by the practice of this branch of surgery, made so necessary by the war.

The site is on the Pennsylvania railroad, and there between 500 and 2,000 men can be accommodated. Dr. Albee says. The work of restoring men to the fullest possible use of their limbs or giving to them such substitutes as they may be able to work with has become second to none in war relief. It was the knowledge of this need which led Mr. and Mrs. Freeman to offer their estate through Dr. Albee.

Dr. Albee went to France last year and spent three months holding clinics at various hospitals. When he returned he was the first to discover that the Freeman estate was the ideal place for such a reconstruction hospital. Army officers who have examined the place since the offer was made say that the big house might have been built for hospital purposes, as not even a room will have to be altered.

Artificial Limbs Made on Spot.

In the center of the house is a large hall, sixty-five feet long and thirty-five feet wide, which runs up two stories and is perfectly adapted to war purposes. On the second floor a gallery runs about the hall with many rooms opening from it. The X-ray and operating rooms will be on the second floor and are so conveniently arranged that they will not have to be changed in the least.

One of the best features of the house from a hospital point of view is the piazza, which runs for 100 feet along one side. The rooms of the second floor on that side open on to the piazza roof, which forms a balcony, and the two levels will provide sufficient accommodation for patients who are well enough to be wheeled out into the air and sunshine for a part of the day. In addition to the house and bunkhouse there will be buildings where braces and artificial limbs will be manufactured and a gymnasium in which the men can slowly work their strained muscles back to strength. Also there will be a building in which they can be taught trades for which their condition may fit them, so when they go back into the world they will be able to support themselves.

AUTOMATIC SHOE SOLER.

Army Adopts Apparatus to Keep Men at the Front in Footwear.

Information given to the army quartermaster department by officers who came to America with the British and French war missions has resulted in the adoption by the army of a piece of equipment which probably is possessed by no other army and which will be carried to France by American overseas expeditions.

The innovation is a semiautomatic half-sooling machine. The visiting British and French officers, while commending highly the standard shoe issued to the American troops, gave startling figures as to the short life of army footwear on the stone roads and in the mud of France. In many cases it was said that the shoes lasted only ten days. The automatic machine will also be used in "oversoling" shoes—that is, on the new shoe will be tacked a heavy half sole before it is issued to the soldier.

Town Cats Must Wear Collars.

Cats are being registered at Lakewood, O. Soon all must wear license tags and collars, and there is to be a fee on each one, and the owners must pay the city 50 cents.

Preparedness Is a Wonderful Thing.

Be ready to meet an emergency and ten chances to one it won't turn up.

Fate of the Mother Scorpion.

The most astonishing manifestation of the maternal instinct in animals is that of the mother scorpion, who is literally devoured by her children and permits them to do so. We stand perplexed at the complexity of an instinct which causes the mother to submit calmly to dismemberment without effort of resistance, yet this same instinct causes her at the same time to ward off any foreign intruder who might interfere with the dismemberment and perhaps save her life.

"Last marvel entry to extremes," says Dr. Muttikowski, "let us note that the action is a fixed instinct and is not controlled by the heat of intelligence. Like most instinctive actions, that of the scorpion shows no logic, for the scorpion permits strange progeny to be foisted on her and to dismember her. She does not distinguish her children from strangers. It is not a self sacrifice, due to love, but a fixed instinct which compels the scorpion to submit to dismemberment at that particular period."—America.

Storms That Beat About the Horn.

The waters of Cape Horn have never been unruffled by storms for more than a week or two at a stretch within the memory of man. Standing on the outpost of the world, Cape Horn is the meeting place of ocean currents of very different temperatures, from the icy cold waters of the antarctic drift to the warmth of the Brazilian and Peruvian return currents. The prevailing winds are from the north-west and west, and these, coming from the warm regions of the Pacific, condense into fogs which the sailors call "Cape Horn blankets" and which are the sure forerunners of storms. The extremely low levels to which the glaciers of Tierra del Fuego descend, the perpetual congelation of the subsoil, the meeting of conflicting winds of very different temperatures, are all direct or indirect causes combining to make this the most constantly stormy region in the world.

Music of the Spheres.

It is to Pythagoras, it is said, that we owe the word "philosopher," says a bulletin of the National Geographic society. Being asked on one occasion of what branch of knowledge he was a master he replied that he was simply a philosopher, a lover of wisdom. His doctrine of the transmigration of souls is supposed to have been the outgrowth of his early years spent in studying the mysteries of Egypt. It is to this sage also that we are indebted for the idea of "the music of the spheres," for as a corollary to his theory of the solar system, which, by the way, antedated Copernicus by 2,000 years, he imagined that the heavenly spheres by their swift motion through space produced musical notes which were too beautiful to be heard by callous human ears.

Gold Filled.

A gold filled tooth and your gold filled watch case may be said to be inversely analogous—that is to say, your gold filled tooth has more or less of the tooth structure of enamel on the outside with gold on a core filling the center. Your gold-filled watch case consists of two sheets of gold, having between each sheet some baser metal to which the gold is soldered. As to the gold in the case, it may be of any fineness and any thickness commensurate with the term "gold-filled." A jeweler will tell you that 10 carat gold is not gold, having too great an admixture of baser metals. Many persons have the idea that the gold filled case is an amalgam of the kind instead of a "sandwich" of gold treated in the inside with the base metals.

Illiteracy in Russia.

The percentage of illiteracy in Russia is very large, ranging about 55 per cent in some provinces. In Petrograd, the capital itself, half the population cannot read or write. The urban population is generally better educated. Including the whole empire considerably more than half the people are illiterate, though educational movements have made remarkable headway in Russia during the past few years.

His Occasional Wish.

"Why don't you ever want to go to a wedding?" snapped Mrs. Enpeck. "I don't believe you've been to a wedding since you attended your own."

CORDOVA'S STONE PAVEMENTS.

The oldest pavement of which there is any record in modern cities is that of Cordova, in Spain, which was paved with stones by the Moors in the middle of the ninth century. The Moors also caused water to be conveyed to the city in leaden pipes.

A Question of Strength.

It is stated that kitchen dishes and utensils made of glass reinforced by wire are stronger than dishes and utensils made of metal. Very probable, but so are iron mallets stronger than metal dishes and utensils.—Louisville Courier-Journal.

Regular Course.

"Don't you think that young folks ought to be taught how to spend money?"

Wake up!! Soiled Suits Cleaned. Sachs phone 5135. 18-21.

A SIMPLE STEAM STERILIZER

FOR FARM DAIRY UTENSILS, EXHIBITED BY BOARD OF HEALTH.

In compliance with a request of the federal government, our local health chief, Dr. Knauus, will next week place on exhibition at our factory a sterilizer for dairy utensils. This little contrivance is evidently rated by the government to be an important addition to the equipment of the modern dairy farm. Clean sterile pans and buckets add tremendously to the purity of milk production.

This sterilizer will be exhibited entirely under the jurisdiction of the health chief, Dr. Knauus. It may be seen any day from July 23 to 30, inclusive, at our factory in Elmwood Court.

Call between the hours of 7 to 9 a. m. and 3 to 5 p. m.
We wish to join with the authorities in extending a most cordial invitation to everyone interested in milk to call and see this device. Milk producers in particular should be interested in this.

THE LICKING CREAMERY CO.,
Elmwood Court.
7-18-21-25-28

Found-Jackson Machine.
The Dodge machine, stolen from the barn of Eugene Jackson, 340 West Locust street, has been located at Radnor, Delaware county. In passing through Radnor the thieves stopped to trade a spare tire in order to get gasoline. A good description of the thieves has not been obtained.

At Neal Avenue Church.
Rev. J. W. Atkinson will speak at the Neal Avenue church, next Sunday evening on "What's the Matter With Newark?"

Basket of Fine Vegetables.
Miss Nan Showman, who may be found any market day at the Farmers' market, West Main street, sent to the Advocate this morning a large basket of vegetables grown in her splendid garden west of Newark. The basket contained a head of cabbage weighing 6-12 pounds, a number of fine large tomatoes, cucumbers, radishes, carrots, potatoes, cauliflower, beets and squash. Miss Showman has a seven-acre garden and a vegetable green house in which she raises tomatoes and lettuce.

Birth Announcement.
Born, to Mr. and Mrs. D. P. Kuninger of 242 German street, a baby girl, Monday night.

Price of Paper Increased.
The Springfield, O. Sun has increased its subscription rate to 12 cents a week, due to the high cost of print materials.

Going to Lakeside.
Mrs. E. S. Hishler and daughter Lucille, Mrs. Thurman Tower and son Russell, Mrs. A. S. Mitchell and Misses Hazel and Katie Ferguson, will leave Friday for Lakeside to attend the School of Missions in session there.

Hospital Board Meeting.
Hospital board of managers will hold a regular monthly meeting at the hospital, Thursday afternoon at 2 o'clock.

King's Daughters.
Whatever Circle of King's Daughters will meet Thursday evening at 7:30 at the home of Mrs. David Evans, Tuscarawas street.

Found Market Good.
J. F. Davis of the National Road, has returned from Pittsburgh where he disposed of a car of lambs, withers and cattle, which he raised on his farm, southwest of this city. Mr. Davis stated that he found a good market and greatly enjoyed his trip to the "Smoky City."

Mr. Batch Improving.
Homer Batch, bookkeeper at the Licking Creamery, has been removed to his apartments in the Belmar following an operation at the City hospital by Dr. Carl Evans. He is improving rapidly.

Ordered to Columbus.
Trevor Davies, of the Davies dry goods store, left this morning for Columbus, having been ordered before the examining board to take the examination for admission to the second training camp for reserve officers at Ft. Benjamin Harrison.

Kelley Reunion.
The reunion of the John P. Kelley family will be held at the home of William Kelley, Thursday, August 2.

Hucksters Must Have License.
Hucksters who want to take advantage of the concession made by council in Monday night's action, still are required to secure a license, according to council members today. The amended section had to do only with the fee for market stands on the street. The clause of an ordinance fixing the license fees for non-producers was not amended.

Will Do Membership Work.
Miss Mary Miller has been added to the office staff of the Chamber of Commerce. Miss Miller will work under the direction of the chairman of the membership and finance committee. She will have charge of fine.

Removed to Home.
Miss Josephine Chesley of Pine street, is recovering from an operation for gangrenous appendicitis performed by Dr. Carl Evans. She was removed to her home from the City hospital today.

Profane Drunk Sunked.
One drunk drew a straight line of \$5; five others were fined \$5 and costs. One woman convicted of nass, \$15 for disorderly conduct, and profanity was fined \$5 for drunkenness, \$15 for disorderly conduct, and \$25 for profanity. The case of an inebriate arrested upon a complaint of his mother was postponed until 7 o'clock tonight.

Don't Suffer With Corns
Putnam's Extracts Them
Dissolves away any kind of a corn, does it quickly, causes no pain, soothes every user. Such is the record of Putnam's Corn Extract. Nearly fifty years in use, and still selling bigger every year. Putnam's Extract is a secret preparation for rooting out corns that has never been equaled. It's by far the best. Get a 25c bottle to-day. Refuse a substitute for "Putnam's."

collection of dues and will do membership work. Her past experience is believed to qualify her for this post.

Membership Council.
Responses to telephone notifications indicate a large attendance at the Membership Council meeting in Chamber of Commerce headquarters at 7:45 o'clock this evening. This is the first session of the council since it has been reorganized. An inquiry is to be begun as to how Newark's water supply may be improved.

Birth Announcement.
Born, to Mr. and Mrs. George R. Ross, 142 Linden avenue, July 16th, a son, George Rutledge Ross, Jr.

Plaine Studies Wireless.
Joseph Plaine, who enlisted in the navy service of the United States, and is now in the United States Naval Training School, Newport, R. I., writes that he expects to be sent aboard a vessel soon. He is studying wireless telegraphy and will be assigned the duties of wireless operator.

GOSHEN.
After making an extended visit at Ansonia, O. Mr. and Mrs. Merrill Brandon and children returned to the home of her parents, Mr. and Mrs. Merrill Moran, where they will remain until harvest is over.

Rev. Emma Potts of Postoria will preach at Mt. Pleasant the 5th of August. Instead of next Sunday as was reported.

Mr. and Mrs. Cloyd Varner and Mr. and Mrs. Carroll Varner spent Saturday night and Sunday with their sister, Mrs. Grover Swygart of Summit Station.

Mr. and Mrs. Arch Little entertained the following guests Sunday: Mr. and Mrs. Warden Little of New Castle, Mr. and Mrs. Denzel Little, Mr. and Mrs. Bert Ashcraft and son, Mr. and Mrs. Allen Cessna, Mr. and Mrs. John Little, Mrs. Betty Ashcraft and Mrs. Jane Thompson.

Thomas Watson and Mrs. J. Wiggins and daughter Ruie spent last Thursday with their sister, Mrs. Melvin Ashcraft.

Charles Frey, Everett Mizer, and Misses Eunice Hoover and Stella Morris spent Saturday night at the home of Mr. and Mrs. R. A. Mizer near Bladensburg.

Miss Edith Cessna is making an extended visit with her sister, Mrs. R. A. Mizer.

The Ladies' Missionary society will meet at the home of Mrs. Waylan Ashcraft, Thursday, July 19.

Mrs. A. Z. Baughman, who had the misfortune to fall and break her arm is improving.

Mr. and Mrs. Wm. Watson of Newark spent Sunday at the home of Melvin Ashcraft.

A Cessna and daughter Enia were callers in Newark Saturday.

Mrs. Charles Moore visited her parents, Mr. and Mrs. David Mosholder Sunday.

Mr. and Mrs. Henry Gault of McKeesport, Pa., visited at the home of James Gault Sunday.

Mr. and Mrs. Charles Fisk spent Wednesday at the home of her parents, Mr. and Mrs. G. W. Chapin.

Magnetic Metals.
Magnetic properties are not confined to iron. Alloys made from various combinations of metals—copper, manganese, tin, aluminum, bismuth and some others—show more or less marked magnetism. Recent work has shown that the highest amount of magnetic power among ironless alloys is obtained by mixtures of copper and manganese plus either aluminum or tin. It is difficult to explain why such alloys should be magnetic.

Mathematics and War.
In addition to his attainments as a chess player, Napoleon was a skillful mathematician, a science which has always attracted great soldiers. As a young man he was quite distinguished by his ready manipulation of mathematical formulae, and his keen mathematical brain was a big factor in his success as a general.

Wellington also had a similar talent, and on one occasion he told the Rev. R. Glegg that he attributed much of his military success to his lifelong devotion to the science of numbers. Many other famous soldiers of the last century were adepts in rapid and accurate calculation, among them Lee, Jackson and Moltke. Washington, too, was a mathematician, a subject in which he was exceptionally proficient.

General Joffe, had he not chosen the army as a profession, might have been a professor of mathematics. Mathematical calculation and applied science are great factors for success in war.—London Chronicle.

Knew It Was Good Music.
The late violinist, Remenyi, used to call at the old Edison office at 65 Fifth avenue. Some one asked Mr. Edison if he remembered the visits.

"I remember him well," Mr. Edison replied. "I was working on the phonograph. He used to come to No. 65 after his concerts and talk. He would sit there talking, and by and by start playing most beautiful things—wailing, soft music. He would play \$2,000 or \$3,000 worth every night."

"Didn't you get him once to play for the phonograph?" Mr. Edison was asked.
"Yes, but the phonograph wasn't working well in those days, so it didn't do him justice. He stood on a soap box and played for me one night, and when he finished tears were rolling down his cheeks. I asked him what the matter was, and he said it always made him cry to hear good music."—Chicago News.

Australian Wool Industry.
Australian wool, on which has been built up much of that British colony's prosperity, started well over a century ago. It originated with a certain Captain MacArthur, a soldier in the British army. Settling in New South Wales soon after Governor Phillip arrived there, he saw the possibilities for growing fine wool and by the luckiest accident was able in 1796 to import five merino ewes and three rams. They were of a flock presented by the king of Spain to the Dutch at the Cape and came from the famous Escurial flock. These, judiciously added to by MacArthur, were the beginning of the vast Australian sheep industry of today. The first shipment of Australian wool was 245 pounds in 1807. Now the shipments run into hundreds of millions of pounds.—Indianapolis News.

Wooden Ammunition.
Some years ago civil war was raging between two Afghan tribes, the All Khel and the Mala-Khel. The latter tribe built great hopes of success on a cannon of such a size that 100 men were required to draw it. A Sikh trained in a British battery was engaged to work the gun on the understanding that he receive 20 rupees every time he hit the village fort of the foe. This did not prove remunerative, for according to an eyewitness, the ammunition consisted of "olive wood balls bound with iron bands, which have a highly eccentric flight and are calculated to do about equal damage to friend and foe." After a three days' bombardment, in which the fort was hit only three times, the hostilities came to an end.—London Standard.

The Healthful Moo.
Man armed with a hoe protects himself from the agencies of death more completely than man with any other defense weapon. The United States bureau of statistics has discovered that important fact by a study of the records of life insurance companies. The statistics of the entire country show that farmers live longer than all other, fifty-eight years being their average years of life.—Worcester Telegram.

His Given Name.
"What is the name of that handsome prisoner?" asked the impressionable young lady.
"No, 2206, miss," replied the guard.
"How funny! But, of course, that is not his real name."
"Oh, no, miss; that's just his pen name."—Boston Transcript.

Soothing Her.
"Darling," whispered Miss Winsum to the victim of hot wiles, "will you love me when I am old?"
"Impossible situation," he whispered back. "You couldn't grow old, angel, on only one birthday in five years."—Indianapolis Star.

The Test of Society.
"Ta, how can you tell whether a man is in society or not?"
"The man who is not in society, my son, is trying to get known, and the man who is in society is trying not to."—

Strait.
Redd—Do you believe a woman can drive an automobile straight? Greene—Sure thing. My wife drove my car today straight into a tree.—Yonkers Statesman.

His Handicap.

Nuxated Iron Should Be Used In Every Hospital and Prescribed by Every Physician

Says Dr. Howard James, late of the Manhattan State Hospital of New York and formerly Assistant Physician Brooklyn State Hospital.

It quickly enriches the blood, strengthens the nerves and puts most astonishing youthful power and vigor into the veins of both men and women. It often increases the strength and endurance of delicate, nervous, run-down folks 100 per cent in two weeks time.

Opinions of Dr. Schuyler C. Jacques, Visiting Surgeon of St. Elizabeth's Hospital, New York; Dr. A. J. Newman, late Police Surgeon of the City of Chicago and former House Surgeon Jefferson Park Hospital, Chicago, and other physicians who have tested Nuxated Iron in their own private practice.

In a very interesting and instructive discourse on the great values of plenty of iron in the blood, Dr. Howard James, late of the Manhattan State Hospital of New York and formerly Assistant Physician Brooklyn State Hospital, said:

"A patient of mine remarked to me (after having been on a six weeks' course of Nuxated Iron):

"SAY, DOCTOR, THAT THERE STUFF IS LIKE MAGIC."

"Previous to using Nuxated Iron, I had been prescribing the various mineral salts of iron for years, only to meet complaints of discolored teeth, disturbed digestion, tied up, hardened secretions, etc., when I came across Nuxated Iron. Its elegant, ingenious preparation containing organic iron which has no destructive action on the teeth—no corrosive effect on the stomach, and which is readily assimilated into the blood and quickly makes its presence felt by increased vigor, snap and staying power."

"Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron."

"As I have said a hundred times over, organic iron is the greatest of all strength builders. If people would only take Nuxated Iron they would be run down, instead of dosing themselves with habit-forming drugs, stimulants and alcoholic beverages. I am convinced that in this way they could ward off disease, preventing it becoming epidemic in thousands of cases, and thereby the lives of thousands might be saved who now die every year from pneumonia, grippe, kidney, liver, heart trouble and other dangerous maladies. The real and true cause which started their diseases was nothing more or less than a weakened condition brought on by a lack of iron in the blood."

"Thousands of people suffer from iron deficiency and do not know it. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how long you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. From my own experience with Nuxated Iron I feel it is such a valuable remedy that it should be kept in every hospital and prescribed by every physician in this country."

Dr. E. S. Hart, a Boston physician, who has studied both in this country and great European medical institutions, was asked what he thought of Dr. James' remarks. In reply, he said: "I fully agree with Dr. James. People need more iron. There can be no strong, vigorous iron without healthy healthy women with iron. Not long ago a man came to me who was nearly half a century old

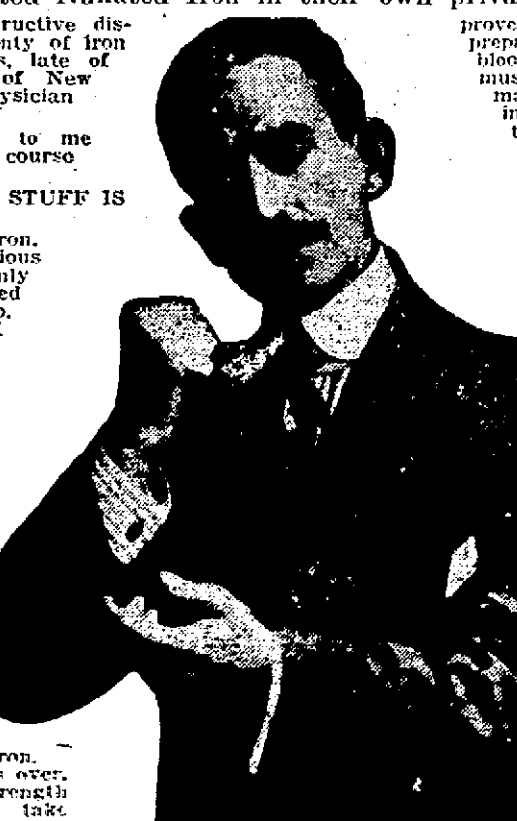

and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of twenty, and as full of vigor, vim and vitality as a young man. In fact, a young man he really was, notwithstanding his age. The secret, he said, was taking iron—Nuxated Iron had given him with renewed life. At 70, he was in good health, at 45 he was worn and nearly all in a crouch at 30, after taking Nuxated Iron, a miracle of vitality and his face beaming with the buoyancy of youth."

Dr. A. J. Newman, late Police Surgeon of the City of Chicago and former House Surgeon Jefferson Park Hospital, Chicago, in commenting on the value of Nuxated Iron, said: "This remedy has

proven through my own test of it to excel any preparation I have ever used for creating red blood, building up the nerves, strengthening the muscles and correcting digestive disorders. The manufacturers are to be congratulated in having given to the public a long-felt want, a true tonic supplying iron in an easily digested and assimilated form. A true health builder in every sense of the word."

Dr. Schuyler C. Jacques, Visiting Surgeon of St. Elizabeth's Hospital, New York, was also asked what he thought of Nuxated Iron. In reply Dr. Jacques said: "I have never before given out any medical information, but I feel that I should mention it as I ordinarily do not believe in it. But in the case of Nuxated Iron I feel that it would be remiss in my duty not to mention it. I have taken it myself and given it to my patients with most surprising and satisfactory results. And those who wish quickly to increase their strength, power and endurance will find it a most remarkable and wonderfully effective remedy."

Next to be consulted was Dr. Ferdinand King, a New York Physician and Medical Author, who said: "I heartily concur in all that Dr. James has said, only in some respects I would go further. Dr. James forgot to mention how food loses their iron value by improper methods of cooking. In the most common foods of America—the starches, sugars, table syrups, candies, polished rice, white bread, soda, crackers, biscuits, macaroni, spaghetti, canned goods, etc., farinaceous material, no longer is iron to be found. Refining processes have removed the iron of Mother Earth from these impoverished foods and silly methods of cooking have destroyed the iron in the vegetables which are responsible for another grave iron loss. Therefore, if you wish to retain the iron in your vim and vigor to a ripe age, you must supply the iron deficiency in your food by using Nuxated Iron. It is a most remarkable remedy in all forms of indigestion, as well as for nervous, run-down conditions. The manufacturers have shown great confidence in Nuxated Iron, that they offer to forfeit \$100,000 to any charitable institution if they cannot take any iron or women under 20 who lack iron, an increase their strength 100 per cent, or over in four weeks time, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by W. A. Evans' Cut Rate Drug Store and all good druggists.—Advertisement.

Dr. Howard James, late of the Manhattan State Hospital of New York and formerly Assistant Physician Brooklyn State Hospital tells physicians he believes that more Nuxated Iron should be prescribed to meet the great problem of iron deficiency with its attendant symptoms of weakness, nervousness, lack of vitality, paleness, and generally run-down conditions.
WARNS AGAINST USE OF ORDINARY METALLIC IRON so commonly taken by most people.

SERVES YOU BEST

MERRYMAN LIKES
LIFE IN THE NAVY
AND TELLS WHY

"Enlist in the navy if you wish to grow strong. It is as healthy a life as any young man could find." This is the way Leslie Merryman, a former Newark boy, recommends the naval branch of the service. Young Mr. Merryman is the son of Mr. and Mrs. Joe Fulk of Alexandria, O. Mr. Merryman says:

"I enlisted in the navy last April as an apprentice seaman and have worked up to seaman. My pay now is \$36.00 a month with board and hammock included.

"We get three square meals a day. Here is a model Wednesday supper. Fried steak, mashed potatoes, gravy, peas and beans and all the wholesome bread, baked by the ship's bakery, that you can eat. We have cocoa for supper but at the other meals we have our choice of tea or coffee.

"A man entering the navy is given plenty of clothing. Two blue uniforms, three white uniforms, two pairs of shoes, hats, socks and underwear all furnished. Of course we have to wash the white ones ourselves, but all that is fun after you know how. The hammock is the hardest thing to get used to as it is rather shaky bed, for one that is used to sleeping in a four poster all his life.

"The portside of the ship was given forty-eight hours liberty on the third and fourth and a sailor

friend of mine from W. S. S. Pennsylvania, decided we would spend the third at the Naval Y. M. C. A. and the fourth we spent at Ocean View, a beautiful place and some grand sights to see.

On Mosquito fleet flag ship I spent seventeen days in the Norfolk training station and was as-

LESLIE MERRYMAN.

signed to the W. S. S. Montgomery, now the flagship of the Mosquito fleet.

"This squadron is composed of armed yachts, converted fishing boats and third class battleships.

"The Navy is a place where discipline is the rule. But Commander W. S. Littlefield of the Montgomery knows the name of every man from stoker to ensign aboard his ship. We call him 'the ship's dad.'

Every man in the navy knows how to swim, that is one of the requirements of the navy and when the ship is located in a suitable place, swimming hours are held and the men jump right off the side of the vessel. I shall never forget my first experience as I had never learned to swim before I entered the navy.

I am feeling better than I ever did in my life. This outside life surely makes one feel fine.

"I hope to see all my friends when I get a furlough, but I can't tell just when that will be."

Leslie Merryman is on the U. S. S. Montgomery at Norfolk, Va.

25 Years Ago

(From Advocate, July 18, 1892.) E. J. Maurath is advertising hard coal at 6.75 per ton.

The little Misses Ella McDonald and Bessie Glenn gave a very enjoyable picnic to a number of their playmates at the Fair Grounds today.

The Order of Railroad Conductors of Newark will picnic at Black Hand, July 25.

George W. Roe of the firm of Black & Roe, left today for Kelley's Island where he will spend a few weeks.

PROSPERITY BULLETIN
NO. 27.

"This is the time to roll up one's sleeves and go to it stronger than ever. Men's minds are now full of many things, and unless you have a progressive, strong and aggressive advertising campaign, it is better to quit, as a mediocre campaign will have little or no effect."

R. C. Haws, Baker-Vawter Company, Benton Harbor, Mich.

Did You Ever Unhitch
Your Horse In the Dark

Have you been caught out at night when you could scarcely see your hand before you? It is very unpleasant to have to drive up to the barn and unhitch your horse in the dark. You need not have this difficulty if you let J. M. Thomas install a Delec Lighting system on your farm. It's easy to operate, does not cost much, saves an extra hand and adds to the value of any farm. Come in and see me at 47 South Third street. 18-11

Drive Uric Acid Poison
From Your System
AMBITION SALTS

This is the remedy that will make your eyes bright, your skin clear, your blood pure, your liver and kidneys healthy.

It's worth while to feel ambitious, to have the energy that makes you go to work eagerly, to accomplish to your satisfaction what you have to do, to feel the glow of health and strength. AMBITION SALTS will start you right in the morning—will cleanse your whole system of uric acid poison which is responsible for indigestion, biliousness, headache, acid stomach, rheumatism, liver and kidney troubles.

If you want to feel like your old self, go today and get a bottle. Your money back on the first bottle purchased if it doesn't do all we claim for it. You will feel better after taking it once, and after using it a short time you will forget the ailments that have made your life a burden.

AMBITION PILLS cost but fifty cents at T. J. Evans' drug store, and dealers everywhere. (Advt)
